Mission & History

The Urban Affairs Association (UAA) is the international professional organization for urban scholars, researchers, and public service professionals.

UAA is dedicated to creating interdisciplinary spaces for engaging in intellectual and practical discussions about urban life. Through theoretical, empirical, and action-oriented research, the UAA fosters diverse activities to understand and shape a more just and equitable urban world. (Adopted March 12, 2010)

UAA is the successor organization to the Council of University Institutes for Urban Affairs, formed in Boston in 1969 by a group of directors of university urban programs. As urban affairs developed as a professional and academic field, the need for an organization that welcomed urban faculty, professionals, and students as well as urban program directors and deans became increasingly apparent. In recognition of this need, in 1981 the organization’s name was changed to the Urban Affairs Association.

Today, UAA includes over 600 institutional, individual, and student members from colleges and universities throughout North America, Europe and Asia. Among its other activities, UAA sponsors the Journal of Urban Affairs, a refereed annual journal, publishing manuscripts related to urban research and policy analysis of interest to both scholars and practitioners. All UAA members receive the Journal of Urban Affairs as part of their membership fee.
Governing Board
2015-2016

Jill Simone Gross
Chair
2014-2017 (2nd term)
Hunter College, CUNY

Peter Burns
2014-2017 (1st term)
Loyola University
New Orleans

Elizabeth Mueller
2013-2016 (1st term)
University of Texas at Austin

Robert Silverman
Vice Chair
2014-2017 (2nd term)
University at Buffalo

Jonathan S. Davies
2014-2017 (1st term)
De Montfort University

Julia Nevarez
2015-2018 (1st term)
Kean University

Edith Barrett
2013-2016 (2nd term)
University at Connecticut

James DeFilippis
2014-2017 (2nd term)
Rutgers University

Gordana Rabrenovic
2015-2018 (1st term)

Please Join us in Remembering our Beloved Colleagues

David W. Bartelt, PhD
1944 – 2015

David retired in 2012 after thirty-two years on the faculty at Temple University, but remained active in pursuing research. David was well known for his contributions to Urban Studies particularly in the areas of housing policy, neighborhood development and regional and community indicators. He was instrumental in building the Department of Geography and Urban Studies, including serving as Chair, and was a highly respected scholar, teacher, mentor, and friend to many in the department and in the larger academic community.

David received his undergraduate degree in Sociology from Temple University in 1965, his MA in Sociology from Ohio State University in 1969, and his PhD in Sociology from Temple University in 1978. He joined the Temple faculty in 1980. He has published works in housing, redlining, the development of American cities, and in local economic development. He was a co-author of Philadelphia: Neighborhood, Division and Conflict in a Postindustrial City, as well as an extension of that analysis, Restructuring the Philadelphia Region. He was a co-principal on the Metropolitan Philadelphia Indicators Project (MPIP), with responsibilities for the areas of regional change at the community level, housing, employment, transportation, and the environment.

He was a representative to the National Neighborhoods Indicator Partnership, headquartered at the Urban Institute. Since his retirement, he expanded the focus of his work on the racial construction of housing risk from the Depression to the present, incorporating the changing structure of the banking industry and the growth of speculative mortgage lending.
In Memoriam

Don Phares, PhD
1942 – 2015

Don received his BA in Economics from Northeastern University and both an MA and PhD in Economics from Syracuse University. He joined the UMSL Department of Economics in 1969 and served the department for over 30 years. Don was instrumental in the early development of the department. He inspired many students, some of whom went on to obtain PhD degrees in Urban Economics and Public Finance, and many others who took positions as policy analysts in government.

Don served as Economics chair, but his commitment to UMSL extended well beyond our department. He held a joint faculty appointment in the Public Policy Administration Program and was a central figure in the history and development of the Public Policy Research Center (PPRC). He also served as vice chancellor. His contributions were widely recognized and highly valued. In 1997, he received the University of Missouri Thomas Jefferson Award, which is presented annually to a faculty member who “rises above excellence and demonstrates clear distinction in teaching, research, and service to the University of Missouri and humankind.”

Don was an expert urban economist, specifically focusing on the greater St. Louis area, which made him a sought after source to be quoted and interviewed by local and national media. He served as an expert witness in legal cases and conducted numerous economic and fiscal impact studies for public and private organizations. Don authored or edited six books, and wrote more than eighty articles and book chapters and scores of technical and government reports. He was also very active in the Urban Affairs Association (UAA) and was inducted into the UAA Service Honor Roll.
Originally from Tennessee, Dr. Rose received his PhD in Geography from Ohio State University in 1960. After holding positions at Northwestern University, UCLA, Washington University, and Florida A&M, Dr. Rose joined the Geography faculty at the University of Wisconsin-Milwaukee (UWM) in 1962.

Professor Rose had a long and distinguished career at UWM. He was active not just in Geography, where he served as chair from 1990-1994, but he was also a key figure in the Department of Urban Affairs (now Urban Studies), which he chaired from 1970-1973 and 1974-1977, and in the Department of Afro-American Studies (now Africology), which he chaired from 1977-1978. While the number of students Dr. Rose worked with is difficult to enumerate, he touched the lives of countless urban scholars and practitioners. He modeled the role of public scholar and mentor long after his retirement. Dr. Rose was a groundbreaking and courageous scholar whose research challenged racism at a time when very few in geography even acknowledged racism and its consequences.

Professor Rose retired from UWM in 1995 after thirty-three years of teaching, pioneering scholarship, and a remarkable career of mentoring and public scholarship. He served as President of the Association of American Geographers (AAG) from 1976-1977 and received an AAG Lifetime Achievement Honor in 1996. He was the first Black president of the AAG—and remains the only Black president some 38 years later—and he used his platform to challenge urban racial segregation and discrimination. His presidential address, entitled “Geographies of Despair” (published in the Annals of the AAG in 1978) focused on racial inequality and violence involving Black males. In 2012, Audrey Kobayashi, then president of the AAG, announced the creation of the Harold M. Rose Award for Anti-Racist and Practice in Geography, on behalf of the AAG council, noting his pioneering work in the study of urban racial segregation and discrimination.
In Memoriam

Ronald van Kempen, PhD
1958 – 2016

Ronald studied Human Geography specializing in Urban Geography at the University of Amsterdam. He obtained his doctorate from Utrecht University in 1992, after which he was an assistant professor of Urban Housing Market Processes. In 2002 he was appointed as a full professor of Urban Geography at Utrecht University, specializing in socio-spatial developments in major cities and metropolitan policy. Outside the faculty he established himself in the field of urban issues. He was editor of the Journal of Housing and the Built Environment (1997-2000), Vice-President of the European Network of Housing Research (2000-2004) and in 2006 was quartermaster of the Netherlands Institute for City and Innovation Studies (NICIS). He was still an active member of the Social Sciences Council and the Supervisory Board of the Verweij Jonker Institute shortly before his death.

For many years, Ronald worked enthusiastically and tirelessly for social and geographical education and research. As a professor of Urban Geography he was mainly connected to the theme of spatial diversity and social inequality in cities. His last major undertaking was DIVERCITIES, a European Commission project in which he worked with great zeal and pleasure. His scientific authority was widely recognized both nationally and internationally as evidenced by his many international publications, citations, keynotes and collaborations.

From 2011 to 2014 Ronald was Dean of the Faculty. His leadership laid the foundation for the healthy growth and development of faculty. Ronald fulfilled his administrative function amiably with a strong sense of personal connection with others aided by a healthy dose of humor and a sense of perspective. He was a model of academic expertise and leadership in both teaching and research within the Department of Human Geography and Planning. Ronald was always genuinely interested in the person behind the face: his peers, undergraduate and graduate students. He was not ‘just’ a colleague, he was, above all, a friend.
CALL FOR PARTICIPATION

47th Annual Conference of the Urban Affairs Association

April 19-22, 2017 | Hyatt Regency Hotel | Minneapolis, MN

Challenging Enduring Urban Injustices: Race, Ethnicity, Space, and Political Economy

Abstract/Proposal Submission Opens June 1, 2016—Closes October 1, 2016

While urban inequalities, deprivations, and dispossession along racial/ethnic, spatial, political, and economic lines continue to intensify around the globe; the response to these inequalities is inadequate for creating peaceful, equitable, and stable communities. Urban scholars devote vast amounts of energy to documenting the empirical dimensions of urban injustice, yet there is less research—and even fewer praxis-informed methodologies—on how injustice might be significantly reduced. Further, many urban activities, processes, and mechanisms that are in a nascent (and possibly ephemeral) state, and which hold potential to successfully transform structures that lead to injustice, have not been nurtured by the academic community, by traditional social science methods, or by communication venues.

Consequently, the 2017 conference theme calls attention to the need to develop feasible alternatives that right the ongoing wrongs, that is, that address the multiple and enduring injustices plaguing urban life across the planet. Race and ethnicity are central to this line of inquiry, particularly given their recent salience in visualizing American urban injustice and the social movements that erupted in efforts to transform urban space and urban processes. However, injustice stemming from political economies of urban place is allocated along many axes of human identity, including gender, sexuality, religion or spiritual belief, disability and health status, and in each of these areas exist micro and macro practices that both create and undermine enduring injustice.

Minneapolis provides an apt setting for exploring this theme. The Twin Cities metro area, though doing relatively well as a whole, has significant disparities—especially in educational outcomes, incomes, and incarceration rates— with which local officials and activists are trying to grapple. Over the past few years numerous organizations including the region’s planning body, business roundtable groups, and nonprofit advocacy organizations have put questions of spatial inequities and racially disparate social and economic outcomes at the top of the region’s agenda.

Topical Categories

In keeping with UAA tradition, we encourage proposals that focus on an array of research topics including:

- Arts, Culture in Urban Contexts
- Disaster Planning/Disaster Management for Urban Areas, Cities and National Security
- Economic Development, Redevelopment, Tourism, Urban Economics, Urban Finance
- Education Policy in Urban Contexts, Educational Institutions and Urban Inequalities
- Environmental Issues, Sustainability
- Globalization, Multi-national Urban Issues
Governance, Intergovernmental Relations, Regionalism, Urban Management
Health and Urban Communities
Historic Preservation, Space and Place
Historical Perspectives on Cities, Urban Areas
Housing, Neighborhoods, Community Development
Human Services and Urban Populations, Nonprofit/Voluntary Sector in Urban Contexts
Immigration, Population and Demographic Trends in Urban Areas
Infrastructure, Capital Projects, Networks, Transport, Urban Services
Labor, Employment, Wages, Training
Land Use, Growth Management, Urban Development, Urban Planning
Poverty, Welfare, Income Inequality
Professional Development, The Field of Urban Affairs
Public Safety in Urban Areas, Criminal Justice, Household Violence
Race, Ethnicity, Gender, Diversity
Social Capital, Democracy and Civil Society, Social Theory, Religion and the City
Urban Communications (Urban Media Roles, Urban Journalism, Social Media/Technology in Urban Life)
Urban Design, Urban Architecture
Urban Indicators, Data/Methods, Satisfaction/Quality of Life Surveys
Urban Politics, Elections, Citizen Participation
Urban Theory, Theoretical and Conceptual Issues in Urban Affairs
Urban Issues in Asia and the Pacific Rim
Urban Issues in Central & South America and the Caribbean

Proposal Submission Formats and Policies

A proposal can be submitted through the UAA website (starting June 1, 2016) for a:
• Research paper presentation--(proposal requires an abstract) OR
• Pre-organized panel--(proposal requires a panel summary, group of 4-5 paper abstracts/m moderator) OR
• Pre-organized colloquy--(proposal requires theme statement & names of 4-5 formal discussants) OR
• Breakfast roundtable--(proposal requires theme statement & names of 1-2 conveners) OR
• Poster--(proposal requires an abstract)—best option for persons who are in early stage of their research

Abstract/Proposal Deadline: UAA will not accept any proposals (of any kind) after October 1, 2016, 12 mid-night Central Daylight Time (CDT) or 5:00am GMT. The online submission site will close at 12:01 am CDT. Acceptance or rejection notices will be sent by November 30, 2016.

Participation Policy ---One Session/One Presentation Rule
Individuals are limited to participation (as a presenter, speaker or moderator) in one (1) conference session. There is no limit to the number of papers/posters for which you are a co-author. Policy exception: persons asked to play a service role for UAA can participate in one additional session.

Thursday Morning Plenary Speakers

Social Justice Challenges and Opportunities in a Bi-National Region: San Diego in Context

8:05am—9:05am
Indigo Ballroom
Moderated by Roger Caves, San Diego State University

Reginald Jones is the president & CEO of the Jacobs Center for Neighborhood Innovation. Prior to joining JCNI, Reginald Jones served as President of Chicago-based Steans Family Foundation, a philanthropy committed to revitalizing North Lawndale, a disinvested community on Chicago’s west side. Jones worked with culturally diverse residents and partner organizations to undertake ambitious neighborhood revitalization efforts. Jones joined the foundation in 2003 as Executive Director and was elevated to President in 2011. As the leader of the Foundation, Reginald worked with community residents and organizations, political leaders, and private entities to foster understanding of the organization’s intent, seek input, and build collaboration for neighborhood improvement. He worked with land-use planners, housing and retail developers, human service agencies, and other entities to foster comprehensive community improvement activity. Previously, Jones worked at the Joyce Foundation managing the Culture Program, sharing responsibility for a $10 million Education Grant Program, and creating the Joyce Awards Initiative to support artistic works by minority artists. Reginald also served as Director of Audience Development and Community Engagement at the Ravinia Festival, an internationally renowned performing arts center located in Highland Park, Illinois. Reginald has served on the board of the Council on Foundations, where he also was Chair of the Family Philanthropy Committee. He currently serves on the board of the Lake County (Illinois) Community Foundation and the Merit School of Music in Chicago. He holds a Bachelors Degree from the New England Conservatory of Music in Boston and a Masters Degree from Louisiana State University in Baton Rouge. He completed additional study in nonprofit management focused on organizational development, strategic planning, and sector financial accountability.

Nico Calavita recently retired after 30 years of teaching in the Graduate Program in City Planning at San Diego State University. Much of his research and publications are based on his work with community-based organizations to establish programs on the basis of equity planning principles. For example, he was directly involved in the effort to establish Inclusionary Housing (IH) and Housing Linkage Fees programs not only in the City of San Diego, but in the rest of California as well. He was behind the adoption of IH for the 12,000-acre Future Urbanizing Area of the City of San Diego in 1993. He was co-founder of the San Diego Affordable Housing Coalition that was instrumental in the passage of IH in 2002 in the rest of the City of San Diego. He co-authored (with Alan Mallach) Inclusionary Housing in International Perspective: Affordable Housing, Social Inclusion, and Land Value Recapture (2010). Nico has written over two dozen Op-Eds in the San Diego Union and other newspapers in support of planning and affordable housing. He moved to the San Francisco Bay Area five years ago and is working with the East Bay Housing Organizations (EBHO) to implement land value recapture in the Bay Area as a mechanism to produce affordable housing and other
community benefits. As part of that collaboration he has co-authored a white paper on The Theory, Economy and Practice of Public Benefits Zoning for the Metropolitan Transportation Commission of the San Francisco Bay Area.

Dr. Calavita is also the 2016 UAA-SAGE Activist Scholar Award recipient. He is being recognized for his pioneering work in housing affordability. His record of achievement in this area has generated both concrete advancements in affordable housing initiatives and equitable planning, as well as influencing policy-making in San Diego, the State of California, and other urban contexts.

Susan Lea Riggs serves as Acting Director of the State Department of Housing and Community Development. Prior to this position, she held the appointed position of Deputy Secretary for Housing Policy for the Business, Consumer Services and Housing Agency. Ms. Riggs has also served as the Executive Director of the San Diego Housing Federation, promoting the creation of safe, stable, and healthy housing affordable to lower-income families and people in need. She has also held several prominent positions in San Diego, including an attorney with law firm Best, Best & Krieger, LLP, specializing in affordable housing and redevelopment law; working for the San Diego Housing Commission from 2001-2004; serving as VP of Government Affairs for the San Diego Association of Realtors and, was part of the adjunct faculty of San Diego State University and Southwestern College teaching housing policy and RE economics. Ms. Riggs received her JD from Thomas Jefferson Law School, holds a Master's degree in City Planning from the School of Public Affairs at San Diego State University and a Bachelor's degree in Spanish from the University of Georgia-Athens. In 2011, Ms. Riggs was inducted into Lambda Alpha International, and named 40 Under 40 by San Diego Metropolitan Magazine.

Roger W. Caves is Professor of City Planning, School of Public Affairs, San Diego State University with undergraduate and graduate teaching responsibilities in urban planning, housing, and land use implementation techniques. He served as Director/Coordinator of the Graduate Master’s in City Planning Program from 1993-2009. He received his BA and Master’s in Urban Studies at Old Dominion University and his Ph.D. in Urban Affairs and Public Policy from the University of Delaware (1982). He is the author of Land Use Planning: The Ballot Box Revolution (Sage 1992) co-author of Planning in the USA, 2nd, 3rd, and 4th editions (Routledge, 2003, 2008, 2014), editor of the Encyclopedia of the City (Routledge, 2005), editor of Exploring Urban America (Sage, 1995), and. He is also co-editor (with Dr. Fritz Wagner, University of Washington) of a book titled Community Livability (2012) and is currently working with him on a new edited book on rethinking the meaning of livable cities from a global perspective. His published works also include book chapters and articles in such journals as Urban Studies, JAPA, Cities, Land Use Policy, International Journal of Public Administration, Economic Development Review, and the ASCE – Journal of Urban Planning and Development. Dr. Caves has worked and lectured in a numerous countries to include Canada, Scotland, France, Brazil, Japan, Germany, Lithuania, Latvia, Estonia, Turkey, Romania, Bulgaria, France, Italy, Israel, Germany, Portugal, Spain, Vietnam, Cambodia, and the former Yugoslavia. He was a member of the UAA Governing Board from 1991-1993 and was named to the UAA Service Honor Roll in 2013.
Special Sessions

I. UAA-SAGE Publications Sponsored Activist Scholar Sessions

**Wednesday, March 16**

Wednesday - Exploring Activist Scholarship: Examples, Methods and Lessons Learned (Workshop requires separate application and acceptance process.)

**Thursday, March 17**

TH7.15.05 Change the City Without Taking Power (or Really Changing)? A Discussion on Questions of Localism & Regionalism. John Stehlin, Alex Tarr

TH9.15.17 Organizing Community Development: “Expertise” & Power in Participatory Research. Rachel Brahinsky, Leigh Graham, Emily Rosenman, Benjamin Teresa

TH11.00.10 Movements for Racial Justice In Urban Communities and Activist Scholars. Keith Benson, Stephen Danley, William (Fred) Ellis, Kitty Kelly Epstein, Donna Hunter, Kimberly Mayfield Lynch

TH3.15.00 Activist Scholar Award Recipient Colloquy on Promoting Affordable Housing Through Research & Action. Nico Calavita, Ken Grimes, Stephen Russell

**Friday, March 18**

FR1.45.12 The Intersection of Education & Social Justice: Mapping the Research and Advocacy Fields. Barbara Ferman, Ryan M. Good, Julia Sass Rubin

FR3.40.05 Embedded [or In Bed With]? Navigating the Moral Hazards of Being an Activist Housing Researcher. Lynne Manzo, Susan Saegert, Janet Smith, Amy Khare

II. Professional Development and The Field of Urban Affairs

**Thursday, March 17**

TH7.15.01 Applying for Grants: Perspectives From Seasoned Professors. Roger Caves, David Perry, Fritz Wagner

TH7.15.02 Twenty-First Century American Cities: Publishing Your City. Constance Mixon, Melissa Mouritsen

TH7.15.04 The Promise and Pitfalls of Teaching Field Work. Leslie Martin
Friday, March 18

FR7.15.05 Directing Urban Research Centers in a Time of Austerity. William M. Rohe

FR7.15.06 Increasing Diversity Among University Faculty: What Can Be Done? Tia Burroughs

FR7.15.02 Fulbright Scholar Program Support for Urban Affairs. Silvija Stoljevska

FR7.15.04 Urban Studies Undergraduate Honor Society. Greg Andranovich, Edith Barrett

FR8.05.01 Remembering David W. Bartelt, 1944-2015. Carolyn Adams, Claudia Coulton, David Elesh, Barbara Ferman, Dennis Keating, Leslie Martin, Michael Rich, Gregory Squires, Sabina Deitrick

FR8.05.12 What Are Book Editors Looking For? Ask Them! Douglas Hildebrand, Michael McGandy, Fredric Nachbaur, Juliana Pitanguy, Nicole Solano

FR8.05.20 Publishing in Urban Affairs Journals: Editors’ Perspectives. Jered Carr, Laura Reese, Igor Vojnovic

FR10.30.19 A Memorial to the Life and Scholarship of Don Phares. Dan Monti, Donald Norris, Mark Rosenthal, Todd Swanstrom

FR10.30.20 Getting Tenure/Promotion -Teaching/Service Strategies. Barbara Ferman, Nicole Ruggiano, Robert Silverman, Henry Taylor, Joan Wesley

FR1.45.20 Getting Tenure/Promotion —Research/Publication Strategies. Katrin Anacker, Maria Martinez-Cosio, Michael Owens, Anna Santiago, Todd Swanstrom, Robert Silverman

III. Special Track A: Urban Issues in Asia and the Pacific Rim

Sponsored by Georgia State University – Andrew Young School of Policy Studies and the Lincoln Institute of Land Policy/Peking University-Lincoln Institute Center for Urban Development and Land Policy

Thursday, March 17

TH9.15.01 Rural Migrants in Transitional Urban China: Marginality, Agency and Social Justice (I); Ying Liu, Junxi Qian, Shuangshuang Tang

TH9.15.02 Designing Public Policies in East Asia; Shigeharu Nomura, Xuefei Ren, Hay- den Shelby, Alfred M. Wu

TH11.00.01 Risk, Vulnerability and Resilience in Asia: Cases from Vietnam, India and Indonesia; Ashok Das, Jiwath Ghimire, Andrew Rumbach, James Spencer

TH11.00.02 Continuities and Change in the Urban Housing Market in East Asia; Sun-Hye Bae, Youngmee Jeon, Hyojin Kim, Kayo Tajima

TH1.30.01 Rural Migrants in Transitional Urban China: Marginality, Agency and Social Justice (II); Chaolin Gu, Ming Tian, Jun Wang
TH1.30.02 Housing Inequality and Local Communities in Comparative Perspective; Hai (David) Guo, Jianjun He, Jing Zhao

TH3.15.01 Metropolitan Governance: Global Trajectories, Dynamics and Challenges; Deok Hun Cho, Bligh Grant, Samuel Y. Liang, Kane Pham, Jill Tao

TH3.15.02 Spatial Mismatch, Employment and Commuting of Migrant Workers in China; Hao Jia, Cathy Liu, Jenny Hsing-I Liu, Zhilin Liu, Li Tian

Friday, March 18

FR7.15.01 Research and Publishing on Urban Asia; Shenjing He, Cathy Liu, Xuefei Ren, James Spencer, Jun Wang, Lin Ye

FR8.05.02 Creative Spaces and Places in Asia’s Urban Areas; Yanjun Cai, Nirupama Jayaraman, IL Lee, Wen Wang

FR10.30.01 Rural Migrants in Transitional Urban China: Marginality, Agency and Social Justice (III) Shaowei Chen, Sea Eun Cho, Shenjing He, Bo Zhang

FR10.30.02 Sense of Place and Authenticity of Spaces in Asia Yixia Cai, Maria Francesca Piazzon, Matt Wade

FR1.45.01 Urban Environment and Sustainable Development in Asia; Shannon Bassett, Bo Qin, Huei-Min Tsai, Yi Zhou

FR1.45.02 Better Coordinating Urban and Rural Development in China; Chen Chen, Xiaojian Chen, Pengfei Li, Yumin Ye, Jing Wang

FR3.40.02 Urban Change and Spatial Transformation in Four Asian Cities; Daewoong Choi, Sergey Golunov, Ivan Peshkov, Jerry Zhirong Zhao

Saturday, March 19

SA9.00.01 New Paths to Urban Economic Development in Asian Cities; Xiulian Ma, Russell Smith, Haozhe Zhang

SA9.00.02 (Lincoln Panel) Local Fiscal Health, Land Financing, and Public Service Delivery in China; Xuewen Li, Zhi Liu, Wen Wang, Ming Yin

SA10.30.01 Resilient and Livable Cities in the Face of Natural and Man-Made Hazards in Asia; Chin Siong Ho, Deden Rukmana, Roberta Ryan, Husnul Fitri Sundoko
IV. Special Track B: Urban Issues in Central & South America & the Caribbean

Thursday, March 17

TH1.30.03 Urban Global South: Understanding Environmental and Residential Choices. Kristine Stiphany, Aiga Stokenberga, Ana Sabogal

Friday, March 18

FR8.05.03 Social Equity Struggles and Outcomes in Central and South America and the Caribbean; Jaycee L. Bigham, Sarah Miller Boelts, Natalia Villamizar Duarte, Sukari Ivester, Valerie A. Purry, Soledad Arqueros

PS27.0 Exploring Synergies Between Climate Change and Social Vulnerability On Urban Health in Latin America; Ivan Ramirez

PS28.0 Power by the People: Why Law-Abiding Citizens Support Criminal Organizations? Lahoma Thomas

FR10.30.03 Influences and Outcomes of Socially and Spatially Segregated Cities in South and Central America; Lucia Capanema-Alvares, Graciela Fernández de Córdova, Rachel Coutinho Silva, Janina Leon, Lucia Alvarez

FR3.40.03 Strategic and Collaborative Planning in Central/South America and the Caribbean; Angeliz Encamacion Burgos, Andrea Marpillero-Colomina, Marta Vilela, Cecilia Giusti

V. Special Track C: Globalization and Cities on the U.S.-Mexico Border

Sponsored by The Center for U.S.-Mexican Studies, UC-San Diego

Thursday, March 17

TH11.00.04 Urban Planning Across the Border in a Global Age: Projects and Debates; Lawrence Herzog, Rene Peralta, Keith Pezzoli, Christophe Sohn

TH1.30.04 Health, Education and Self-Help Housing in Low-Income Colonias in the Border and in Mexico; Noah D Durst, Carlos Olmedo, Bara Safarova, Ariadna Itzel Reyes Sanchez, Peter Ward

Friday, March 18

Poster PS29.0 Community Input for the San Ysidro Land Port of Entry; Rachel Christensen

FR10.30.04 Place-Making and Identity at the U.S.-Mexico Border; Vanessa Falcon, Edna Ledesma, Sanchita Mukherjee, Danielle Z Rivera

FR1.45.04 Planning and Environmental Challenges on the Border; Victoria Basolo, Kristen Goodrich, Arturo José de las Fuentes Hernández, Sung-Wook Kwon,
General Information

Welcome! If this is your first UAA conference, do not worry about fitting into the group, we are a pretty friendly organization!

Presentation Guidelines and Audio-Visual Support

Panel sessions are 85 minutes long. Within each session, approximately 15-20 minutes will be reserved for open discussion. In sessions with five presenters, each presenter is allotted 10 minutes. In sessions with three or four presenters, each presenter is allocated 12 minutes. It is best to plan on 10 minutes regardless of the number of presenters since last minute changes in the panel could affect your allotted time.

If you are presenting a paper, please bring at least 12 copies of your paper to your session for distribution.

Each session room will be equipped with a screen, a laptop computer with PowerPoint software, and an LCD projector. A-V technicians will be on-call during conference sessions.

Admissions to Meals/Social Events (Name Badges Required)

IMPORTANT! Please be very careful with your name badge. If you paid non-local registration rates, your badge is worth an average of $400. Think about this whenever you take it off! You must wear your badge to enter all meal/reception events during the conference. If you lose your badge, you will not have access to meals and receptions, and will need to purchase tickets to enter such events. This policy is strictly enforced! Tickets for any UAA meal or reception event can be purchased via credit card at the On-Site Registration desk.

Internet Access and Copy Services

1. In your Hilton Bayfront hotel room: All UAA group members are entitled to free Wi-Fi access in their rooms. Please ask for code or instructions for in-room use when you get your room key.

2. In Conference Session Spaces: Free Wi-fi on Thursday, March 17 and Friday, March 18 ONLY
   - Network name: Urban Affairs
   - View available Wireless Networks.
   - Connect to Urban Affairs
   - Enter in password UAA2016#
   - Open your Web Browser, begin surfing.
   **Please note password is case sensitive**
**Computer/Printer/Copy Services (Closest to the Hilton Bayfront Hotel)**

The Hilton Bayfront Hotel has free computers in the lobby that are free to use. There are two located in the main lobby and four in the bar lobby. The computers are primarily for Internet use and free boarding pass printing. If you need to work on your paper/presentation or print documents, please see alternatives below.

1. **United Parcel Service (UPS)** (Located inside The Hilton Bayfront Hotel)
   - Located on the 3rd floor in the business center
   - Open Monday-Friday from 7:00am -8:00pm; Saturday-Sunday from 8:00am-4:00pm
   - Phone: (619) 321-4201
   - Computer and printer access
   - Windows operating systems; Microsoft Word, Excel, and PowerPoint
   - Scan, Fax, Copy, E-mail

   **Costs:**
   - Computer usage: $6.95 per 15 minutes
   - Printing in Black & White: $0.50 per side/page; Color: $1.89 per side/page
   - Copying in Black & White: $0.25 per side/page; Color: $1.89 per side/page
   - Printing costs are deducted from computer usage fee and will reduce time accordingly

2. **FedEx Office Print and Ship Center** (Located inside the San Diego Convention Center 619-525-5450)
   - Located on the lobby level, in lobby D of Convention Center
   - Monday-Friday: 8:00am – 5:00pm; Saturday-Sunday: 9:00am-5:00pm
   - Computer and printer access
   - Windows operating systems; Microsoft Word, Excel, and PowerPoint
   - Scan, Fax, Copy, E-mail
   - Walking distance to Hilton San Diego Bayfront Hotel
   - Free delivery for larger orders to Hilton Bayfront Hotel

   **Costs:**
   - Computer usage: $0.40 per minute; $0.55 per minute for scanning, Photoshop, etc.
   - Printing and Copying in Black & White: $0.20 per side/page; Color: $1.69 per side/page
Submit Your Paper for the 2016 Best Conference Paper Award

*Deadline: July 15, 2016*

This award is presented to the author(s) of the paper judged to be the best paper presented at the Urban Affairs Association’s (UAA) conference. Recipients are given a complimentary registration to the subsequent conference where the achievement is officially recognized, including the presentation of a plaque that describes the award.

All conference papers submitted for review to the Journal of Urban Affairs are eligible for the award. Papers are subjected to the normal Journal of Urban Affairs review process, and finalists are determined by composite review comments. The award winner is selected by an ad hoc committee designated by the chair of the Governing Board. The committee reports its decision to the Executive Director and the Chairperson of the Board. The Executive Director informs the award recipient of the outcome.

Papers that are accepted for publication through the review process will appear in a subsequent issue of the Journal of Urban Affairs.

To be considered for the Best Conference Paper Award, submit your paper to: http://mc.manuscriptcentral.com/juaf

For general guidance on preparing your manuscript for submission to the Journal please refer to: http://tinyurl.com/nonuyqt

Make sure to identify your paper as a conference paper and include the dates and location of the conference.

Sincerely,

Laura Reese & Igor Vojnovic (Co-Editors)

Conference Schedule
THURSDAY, March 17

B = Breakfast Roundtable Discussions
C = Colloquies & Plenary Sessions
M = Meals & Social Events
P = Panels
S = Poster Sessions
F = Professional Development Opportunities
R = Registration & Book Exhibits & UAA Meetings
T = Tours

Session ID code example: FR8.05.12 = Friday at 8:05am

6:59am – 8:00am  M  Continental Breakfast
Indigo Ballroom C/D
BADGE OR TICKET REQUIRED

6:59am – 6:00pm  R  Book Exhibit
Indigo Ballroom A/E

Exhibitors: Association Book Exhibit; Cornell University Press; Elsevier Ltd.; Fordham University Press; Helen Bader Institute for Nonprofit Management; New Connections; Routledge; SAGE Publishing; Springer; University of Toronto Press

6:59am – 6:00pm  R  Conference Registration/Event Check-In
Indigo Ballroom E/F

7:00am – 8:00am  B  Breakfast Roundtable Discussions (Conveners arrive)
Indigo Ballroom C/D

7:15am – 8:00am  B  TH7.15.03 - Urban Green Spaces, Public Health, and Sustainability Across the United States
Indigo Ballroom C/D

Speaker(s): Viniece Jennings (United States Forest Service, Southern Research Station), Lincoln Larson (Clemson University)

Urbanization presents some of our greatest environmental opportunities and challenges. During this roundtable, we feature multiple case studies across the United States to highlight linkages between urban green spaces and the following: 1.) health disparities (e.g. obesity, heat-related illness, and psychological well-being) across demographic groups, 2.) social determinants of health (e.g. neighborhood environment, education, and economic stability) outlined in Healthy People 2020, 3.) and other issues related to urban sustainability. Participants will engage in an interactive discussion on interdisciplinary approaches to regard the natural environment, public health, and other urban affairs.
TH7.15.05 - Change the City Without Taking Power (or Really Changing)? A Discussion on Questions of Localism and Regionalism
Indigo Ballroom C/D

Speaker(s): John Stehlin (University of California, Berkeley), Alex Tarr (Rice University)

The hyper-local scales of “corridors,” neighborhoods, and even yards have become central loci of nominally progressive urban politics. Fueled, in part, by the in-migration of younger residents with access to certain forms of capital and social networks, some areas of the city become the focus of intense reinvestment in “quality of life” issues like bicycle infrastructure and green space. But the region as a whole rarely benefits. We invite participants to discuss the implications of the above for a regional politics of place, and what alternative regionally-minded progressive politics might already exist. We are particularly interested in city-suburb alliances, land trusts and other decommodification schemes, and new translocal political groupings, but welcome discussion of all ideas and interventions.

TH7.15.06 - Career and Knowledge Pathways in an Urban Setting
Indigo Ballroom C/D

Speaker(s): Merissa Piazza (Cleveland State University)

Much has been discussed in the public press about skills mismatch, job mismatch, and career pathways but we lack understanding of the nuances and implications to the university system. This roundtable offers an opportunity to discuss career guidance strategies used by universities in urban settings to prepare their students for the job market. The discussion leader has studied one set of strategies used at Cleveland State University (CSU), an urban university in Cleveland, Ohio.

TH7.15.07 - The Myth of Self-Sufficiency
Indigo Ballroom C/D

Speaker(s): William M. Rohe (University of North Carolina at Chapel Hill)

Historically, U.S. housing policy objectives were to provide “a decent home and a suitable living environment for every American family.” Beginning in the 1980s, however, these goals were broadened to include the promotion of “self-sufficiency” among public housing residents. Since then, the term “self-sufficiency” has slipped into the titles and objective statements of contemporary housing programs without a clear understanding of (i) what it really means, (ii) the impact of individual versus structural barriers to becoming self-sufficient, and (iii) whether it is a reasonable expectation for many public housing residents. This breakfast roundtable seeks to bring together academics and policy makers from across housing, social work, and workforce development to explore these questions.

<td>The Promise and Pitfalls of Teaching Field Work</td>
<td>Indigo Ballroom C/D</td>
<td>Leslie Martin (University of Mary Washington)</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Fieldwork is central to many urbanists. The ability to see important social processes in action in the &quot;urban laboratory&quot; informs much of our research and our pedagogy. Through leaving the classroom students are able to see that classroom knowledge matters in the &quot;real world.&quot; This roundtable invites us to wrestle with our experiences of fieldwork as an important element of pedagogy, and strategies for working through the mis-steps and missed opportunities that arise when teaching in our communities. What makes some fieldwork experiences successful for students? Importantly, what can make fieldwork experiences problematic for our students, for ourselves and for the communities we engage with? When faced with fieldwork gone awry, how do we learn from mistakes, and help students learn from them as well?</td>

TH8.05.00 - General Plenary--Social Justice Challenges and Opportunities in a Bi-National Region: San Diego in Context
Indigo Ballroom C/D

Speaker(s): Nico Calavita (San Diego State University), Reginald Jones (Jacobs Center for Neighborhood Innovation), Susan Lea Riggis (California State Department of Housing and Community Development)
Moderator: Roger Caves (San Diego State University)
(See details about speakers on Plenary announcement page)

TH9.15.05 - Promise of Urban Fellowships for Building Capacity in Distressed Communities—Place Based Policy Lessons From the Field
Indigo 204B

Speaker(s): Lauren Bulka (Metropolitan Institute at Virginia Tech), Graig Donnelly (Detroit Revitalization Fellows, Wayne State University), Kathryn Hexter (Cleveland State University), Gretchen Moore (Downtown Fresno Foundation), Walter Wright
Moderator: Kathryn Hexter

Urban fellowship programs have been around for decades starting with initial investments from the Ford Foundation in the 1960s, but the academic literature says very little about how fellowship can serve as agents of local policy change or help build community capacity. Based on a 2015 assessment of the Strong Cities, Strong Communities (SC2) Fellowship program (2012-2015), this roundtable will explore the “promise of urban fellowships” as a critical component of federal place-based urban policy to enhance and expand the capacity of local governments and community based organizations in distressed communities. To frame the discussion SC2 fellowship management and evaluation team members will share the results from their program evaluation and position it within the expanding academic and practitioner interest in federal place based urban policy. They will also feature their extensive research about the emerging field of urban fellowship—a typology of fellowship programs—informed by a November 2014 symposium convened at The Urban Institute that brought together program directors and fellows from other leading fellowship programs (e.g., Detroit Revitalizations Fellows, Washington DC’s Capital Cities Fellows, and CUREx) together with the SC2 fellows. Important questions surfaced during the symposium will help inform the colloquy’s discussion: 1) How do urban fellowship programs define success? 2) What is the structure and process for selecting, placing, and managing the fellows? 3) How do fellows develop support networks and how do local networks support the fellows? 4) How to measure and evaluating the impact and influence of urban fellows? and 5) How to scale and sustain urban fellowship programs over time?
7:15am – 10:40am C TH9.15.17 - Organizing Community Development: “Expertise” & Power in Participatory Research (ACTIVIST SCHOLARSHIP)
Aqua Salon E

Speaker(s): Rachel Brahinsky (University of San Francisco), Leigh Graham (John Jay College of Criminal Justice), Emily Rosenman (University of British Columbia), Benjamin Teresa (The Graduate Center of the City University of New York)

Moderator: Benjamin Teresa

This colloquy will engage in critical dialogues on how researchers engage in and train for participatory research focused on issues of community development and what the impacts are for the researchers and the communities involved. What insights do participatory approaches highlight in the current landscape of community organizing and development? What practices emerge for junior scholars and training programs on community-based work? How does such work ultimately impact the communities themselves, and how do academics navigate these tensions? In this colloquy sponsored by both UAA and URBAN, panelists will highlight innovative methodologies and approaches and emerging insights and lessons. Engaging in reflexivity on their respective projects, panelists will discuss their experiences in the context of specific research projects on gentrification and the financialization of real estate, community development, and housing, and encourage discussion with those in the audience. Through the colloquy, we will unpack “activist” scholarship by deliberating how we might address conflicting goals and interests in the communities we work with.

9:15am – 10:40am P TH9.15.01 - Rural Migrants in Transitional Urban China: Marginality, Agency and Social Justice (I)
Indigo 202A

Speaker(s): Ying Liu, Junxi Qian, Shuangshuang Tang

Sponsor(s): Georgia State University – Andrew Young School of Policy Studies, and the Lincoln Institute of Land Policy/Peking University-Lincoln Institute Center for Urban Development and Land Policy

Moderator: Junxi Qian

Rural migrants in transitional urban China have received extensive scholarly attention from all social sciences disciplines. While the large corpus of studies on this peculiar social group have unraveled in depth their unequal access to citizenship, relatively less effort has been made to examine theoretically the uneven structure of power in which rural migrants are located. Yet, this structure of uneven power specifies an identity category that feeds into a variety of exploitative relations, not simply in the domain of economy, but in all aspects of the lifeworld. As Fulong Wu (2010) trenchantly argues, the curtailing of migrant welfare and the sequestration of this social group to a “state of exception” serves the state to preserve China’s competitiveness in a global market. Also, as the three proposed panels attempt to cast some light, the state manipulates and appropriates differentiated citizenship to advance various ends of governance. As such, the cohort of authors assembled here avoid reading migrants’ marginality simply from an institutional perspective, but rather hope to examine the material socio-spatial processes in which
marginality unfolds, evolves and constitutes social relations. In other words, we
gauge the implications for social justice from the entry point of everyday life
and mundane social, economic and cultural transactions. This first panel
focuses on contemplating the structural marginality and the various forms of
exclusion and domination to which rural migrants are subject.

Indigo 204A

Speaker(s): Brett Barkley, Sweta Byahut, Jacklyn Kohon, Kirk McClure
Moderator: Katrin Anacker

Over the past decades, affordable housing and housing affordability has
deteriorated for many low-, very low-, and extremely low-income renters and
also for some low-income homeowners. Recently, the rental affordability crisis
was called a “silent crisis” by Shaun Donovan, former Secretary of the U.S.
Department of Housing and Urban Development (HUD). The number of public
or social housing units has decreased while billions are needed to address
defered maintenance. This panel discusses issues pertaining to affordable
housing and housing affordability, along with current and future public policies.

Aqua 305

Speaker(s): Charise Fong, Amy Gillman, Douglas Jutte, Kimberly Libman, John Moon
Moderator: Shauneequa Owusu, New York Academy of Medicine

Increasingly, the health sector is recognizing that community development is an essential ingredient for local action on the social determinants of health. This panel convenes experts from medicine, community development, finance, and public health to consider opportunities for increasing collective impact at the intersections of health and development in the post-Affordable Care Act context of health system transformation. The presentations collectively support rethinking the drivers of this type of intersectoral activity, how the history of the Community Reinvestment Act and its affects in low-income neighborhoods can offer lessons for the navigating the current context, institutional transparency, and strategies for investing to advance health and social equity. Specific subtopics addressed include: addressing the complexity of simultaneously acting on multiple determinants of health, metrics and measures of success, evidence-based community building, fiscal mechanisms to capture and reinvest health care savings, and workforce considerations.

Th9.15.13 - TOD in a Comparative Perspective: New Insights on Processes of Coordination Between Transportation and Urban Planning at the Local Level

Aqua 311A

Speaker(s): Pierre Filion, Emmanuel Brunet Jailly, Juliette Maulat, Florence Paulhiac
Moderator: Florence Paulhiac

The panel focuses on modalities of concrete implementation of strategies aimed at coordinating urban planning and transportation planning. At the local level, they would be defined as a strategy of redevelopment and revitalization of living environments; a strategy proposing new affordable and livable neighbourhoods. But in this context, the panel examines, not so much the contents of TODs and their effects on mobility or accessibility, but rather the transport-urbanism processes of coordination in such operational projects. Beyond the specifics of metropolitan governance and planning of each Canadian city, the “urbanism – transport” strategy is defined as a local coordination process. It depends, above all, on a specific actors' game, at the various stages of the projects that are planned. Our goal is to provide new knowledge on the modalities of cooperation among actors at different stages of projects TOD type and, on the effects of this cooperation on the content of the urbanism-transport coordination. In the end, the panel constitutes a good chance for proposing a renewed theoretical approach for the process analysis of TODs, as well as analyzing different processes that, at the same token, underlie these projects in various local contexts in Canada and examine the links between these processes and the content of the projects.

TH9.15.15 - In the Wake of Disaster: Crises and Urban Governance in Comparative Perspective
Aqua 309

Speaker(s): James Connolly, Gavin Shatkin, Thomas J. Vicino, Liza Weinstein
Moderator: Len Albright

This panel brings together empirically- and theoretically-grounded papers that put urban governance challenges at the center of inquiries into social and ecological disasters. With the increasing frequency and severity of disasters, many cities around the world are coping with, recovering from, or preparing for the next crisis. As a result, government officials at all levels, alongside community groups and social service agencies, are faced with numerous and often unknowable challenges. By presenting a diverse set of governance challenges associated with urban social and ecological disasters from rich and poor countries in the global north and the global south, this panel enables an exploration of the emerging demand for reconfiguring comparative urban studies across regional divides. While whole new areas of study have turned their attention to questions of urban resilience, relatively little attention has been paid in this literature to questions of comparative political economy and socio-cultural context. The comparative studies that have been done have tended to stay within a narrow band of “like cases” and, as a consequence, have reproduced familiar tropes about success and failure. This panel questions that approach.

**TH11.00.06 - Theorizing Housing: What is the State of the Art?**
Indigo 204A

Speaker(s): David Clapham (University of Reading), James Fraser (Vanderbilt University), Hannu Ruonavaara (University of Turku), Janet Smith (University of Illinois-Chicago)

Moderator: Janet Smith

“A central problem of much of housing studies is that it retains a myopic and narrow focus on housing policy and housing markets, and neglects broader issues. Housing studies is still far too isolated from debates and theories in the other social sciences and what is needed now is further integration into these.” Jim Kemeny, 1992. “Can we theorize about housing? If so, why is it that it is seldom attempted? There is an overly deprecatory quality to theorizing on housing, an almost apologetic sense that housing is not substantive enough for theory. Housing, it is argued, is not an academic discipline, lacking its own concepts and methodologies. We therefore cannot theorize from housing phenomena, but only bring existing social theories to bear on these phenomena.” Peter King, 2009. To help stimulate the application of theory to housing research, the journal Housing, Theory and Society was launched 31 years ago (first as Scandinavian Housing and Planning Research). This colloquy focuses on the current state of housing theory. The speakers – some past and present editors of Housing, Theory and Society – will discuss past efforts to theorize housing and current opportunities and challenges given the role housing plays in shaping life outcomes, global markets, human rights and spatial inequality among other things. We will look at issues in Europe, the UK and the US including immigration, refuge, security, homelessness, social housing, ownership/tenure and supported housing.

11:00am – 12:25pm C

**TH11.00.10 - Movements for Racial Justice In Urban Communities and Activist Scholars (ACTIVIST SCHOLARSHIP SESSION)**
Aqua Salon E

Speaker(s): Keith Benson (Rutgers University and Camden High School), Stephen Danley (Rutgers University), William (Fred) Ellis (Holy Names University), Kitty Kelly Epstein (Holy Names University and Fielding Graduate University), Donna Hunter (Stanford University), Kimberly Mayfield Lynch (Holy Names University),
Thursday, March 17
Morning Events

University)
Moderator: Kitty Kelly Epstein

There are racial justice movements in every area of urban affairs, and scholars are present within these movements as both participants and analysts. Movements that oppose police violence, urban school district take-overs, profit-driven education and prison policies, and gentrification all find scholars involved both as participants and as sources of data and analysis. How do we assess the potential for racially just solutions? And how do scholar-activists see the effects of their participation? Kimberly Mayfield Lynch, Fred Ellis, and Kitty Kelly Epstein have both led and studied movements to transform aspects of the City of Oakland. In particular, they have campaigned against school district take-over, against barriers to the employment of African-Americans and Latinos in teaching and other fields; and against a political machine which threatened to dominate this historically activist city. A number of these campaigns have been relatively successful. Keith Benson is a high school teacher in Camden, New Jersey, a majority African-American city, and a graduate student at Rutgers University. He is both studying and acting on neoliberal practices in urban development and education reform. Stephen Danley, a professor at Rutgers University researches how policy makers and residents in Camden see the decisions that are made on education reform, public safety, police governance, and tax credits. Donna Hunter, a lecturer at Stanford University has examined, along with her colleague, Emily Polk, the contrasting responses of academia to two different movements, Black Lives Matter and Occupy. Panelists will briefly present the most interesting aspects of their work and then lead colloquy participants in a discussion of implications, contrasting examples, and future directions for activist scholarship on movements for racial justice.

11:00am – 12:25pm C TH11.00.14 - Community Based Research - Defining and Designing a Response to Coercive Sexual Environments
Aqua 313

Speaker(s): Elsa Falkenburger (Urban Institute), Susan Popkin (Urban Institute), Jay Silverman (University of California San Diego)
Moderator: Elsa Falkenburger

This session will focus on using a community-based research approach as a method for better understanding new public health concerns and other public policy challenges. The Urban Institute and University of California San Diego will describe their joint efforts in defining a new public health concept – coercive sexual environments (CSE) – and designing and testing an intervention in response. Dr. Sue Popkin will provide insights on how she better defined the problem using both quantitative and qualitative information from various research projects, and then developed a new validated scale to measure community levels of CSE. Dr. Jay Silverman will review the public health implications of exposure to CSE for adolescent girls, including vulnerability to a range of forms of gender-based violence (partner violence, sexual assault, sexual exploitation), adolescent pregnancy, and HIV. Elsa Falkenburger will share lessons learned from several of the community-based research methods used as part of the PASS project – building trust, sharing and interpreting data collaboratively with the community, and training community members to implement the intervention to improve service delivery and sustainability. The
moderator will engage any willing colloquy participants to share their questions, experiences, and suggestions throughout the session.

**TH11.00.16 - Boom, Bust and Beyond: Understanding the Economic, Governance and Planning Impacts of Shale Gas Drilling Across Regions**  
Aqua Salon D

Speaker(s): Teresa Cordova (University of Illinois at Chicago), Sabina Deitrick (University of Pittsburgh), Iryna Lendel (Cleveland State University), Carolyn Loh (Wayne State University), Andrew Thomas (Cleveland State University)  
Moderator: Sabina Deitrick

Boom-bust dynamics in the unconventional gas industry are already evident in many regions across the U.S. Technological changes in horizontal drilling and hydraulic fracturing enabled development of the industry in new areas previously too difficult and unprofitable for gas extraction. Production surged in the late 2000s and early 2010s, but more recently has slowed with lower gas prices. The impacts of this cycle are widespread. They are certainly felt on regional economic development, but also on other aspects of planning, governance and regulation. This colloquy will focus on the interrelated impacts of shale gas drilling across different shale plays in the U.S. as the industry affects local and state governments. Speakers will address economic impact changes, planning developments, and effects on governance and regulation. We will discuss not only what has been done in different cases but what lies ahead in yet another boom-bust cycle of this (relatively new) resource extraction economy.

**TH11.00.21 - Journal Publishing: What Editors Think You Should Know**

**TH11.00.01 - Risk, Vulnerability and Resilience in Asia: Cases from Vietnam, India and Indonesia**  
Indigo 202A

Speaker(s): Ashok Das, Jiwnath Ghimire, Andrew Rumbach, James Spencer  
Sponsor(s): Georgia State University - Andrew Young School of Policy Studies, and the Lincoln Institute of Land Policy/Peking University-Lincoln Institute Center for Urban Development and Land Policy  
Moderator: James Spencer
Vulnerability and resilience have taken root among scholars and practitioners of urban planning and policy, yet there is no agreed-upon set of conceptual frameworks from which to develop scalable and effective policies and plans. The regions of Asia are particularly hard-hit by natural and other hazards, partly because of natural conditions, and partly because of rapid urbanization and growth. Using cases from Vietnam, India and Indonesia, as well as theoretical perspectives on decentralization, community-level urban infrastructure, and democracy, this panel seeks to provide some direction on resilience and vulnerability that deals equally with social, built-environment, and natural processes.

Kayo Tajima, Rikkyo University
In a globalizing world, the spaces around international boundaries are increasingly complex. On the one hand, border regions have become magnets for what might be generally labeled “cross-border integration,” in the form of labor markets, trade relationships, tourism flows, cultural exchanges or ecosystems that call for innovation. Scholars have thus begun to understand cross-border space, not as a zone that merely separates two nations and needs to be defended, but as a setting for “debordering” or the removal of fortified boundaries. On the other hand, global terrorism, border crime, narcotics smuggling and other developments have caused some nations to engage in what scholars term “rebordering”, the building of new fences, walls and other forms of border security. Given these different forces at play we are moving toward an era of “bordering dynamics,” the interplay of the forces that seek to reinset the physical border as a kind of barrier, and those that would imagine cross-border daily urban systems or what some call the “transfrontier metropolis.” This panel addresses the question of urban planning across borders in this context, and will tackle four perspectives, at different scales, from micro to macro: first, the idea of building models of shared food, water and energy systems in the context of climate change and cross-border metropolitan space. A second paper explores an ecological revitalization plan for the cross-border river zone in the Tijuana-San Diego metropolis. A third paper examines the dialectic between urban planning of the border crossing zone and downtown Tijuana, illustrating the ongoing conflicts between neighboring spaces that are seemingly integrated but divided by global politics. The final paper offers a geopolitical and theoretical exploration of the notions of rebordering and debordering in the 21st century.

**Urban Form-Based Adaptations to Extreme Sea Level Events for Waterfront Development**  
Liangliang Wang, Xiamen University; Chye Kiang Heng, National University of Singapore; Jie Han, Xiamen University

11:00am – 12:25pm P  **TH11.00.15 - Integrated City Sustainability**
Aqua 307

**Speaker(s):** Vanessa Balta-Cook, Richard Feiock, Christopher V. Hawkins  
**Moderator:** Christopher V. Hawkins

Although cities have been called the “key battlegrounds” for global sustainability and recognized as leaders and innovators in climate protection and sustainability policy, in depth empirical studies of their efforts have been thwarted by data limitations. Data about local sustainability policy is typically collected via surveys administered to local government officials and has been
used to examine a series of questions about the factors that drive cities to make sustainability commitments or pursue select initiatives. However, questions about the process of implementation, program management, and policy change over time have remained understudied. The three papers in this panel describe and illustrate an effort to overcome these data challenges and examine city-based sustainability efforts in more meaningful ways. The Integrated City Sustainability Database (ICSD) is a long-term effort to create a comprehensive dataset on sustainability local sustainability policy in the United States. When completed it will contain nearly full coverage for cities’ 2010 baseline efforts.

An Introduction to the Integrated City Sustainability Database: Purpose and Methods
Richard C. Feiock, Florida State University

An Illustration of the ICSD: An Assessment of the Factors that Lead Collaboration for Sustainability
Christopher V. Hawkins, University of Central Florida

Using the ICSD to Examine Changes to Local Sustainability Policy 2010-2015

The Transition From Informal to Formal in Post-Industrial Cities: The Case of Live/Work
Andreanne Doyon, The University of Melbourne

Revitalizing Legacy Cities in the 21st Century: The Role of Foundations
Mary Rocco, University of Pennsylvania

Barry Rubin, Indiana University; Trent A. Engbers, University of Southern Indiana

11:00am – 12:25pm  TH11.00.18 - The Post-Demolition City
Aqua Salon C

Speaker(s): Joanna Ganning, Jason Hackworth, Kelly Kinahan
Moderator: Joanna Ganning

The idea that housing demolition can have generative qualities has advanced considerably in recent years as federal, state, and local officials fund the eradication of blight in disinvested neighborhoods, and spate of studies carefully detail the impacts of neighborhood deterioration. Though the
microscopic externality effect of blight eradication (i.e. influence of demolition on nearby house values, crime, and public health) has been well-tested, other questions remain comparatively under-examined. What are the broader institutional forces behind demolition-heavy urban policy approaches? What is the accumulated impact of demolitions in already-disinvested neighborhoods? Are there signs of market reversal and social stabilization, or have conditions continued to deteriorate? Are there any policy measures (e.g. side lots, community gardens, etc.) appropriately scaled to repurpose the increased amount of vacant land being produced by such demolitions? Are cities (or land banks) institutionally capable of handling the likely increase in tax reverted properties? This session will consist of historical and contemporary papers examining the larger consequences of demolition-heavy urban policy.

Demolition as Urban Policy in the American Rust Belt
Jason Hackworth, University of Toronto

When It Comes to U.S. Shrinking Cities, What Do We Mean?
Joanna Ganning, University of Utah; Rosie Tighe, Cleveland State University

Revitalization and Stabilization Through Historic Preservation: Case Studies of Two St. Louis Neighborhoods
Kelly Kinahan, Cleveland State University

11:00am – 12:25pm  TH11.00.19 - Building Walkable Communities: A Detroit Regional Context
Aqua 311A

Speaker(s): Jeanette Eckert, Zeenat Kotval-K, Jieun Lee, Igor Vojnovic
Moderator: Igor Vojnovic

The panel focuses on exploring accessibility in urban and suburban contexts within the Detroit Region. The various analyses will build and explore measures of accessibility while isolating for socio-demographic variables (including income, race, age and gender in conditioning accessibility), quantifying pedestrian activity, and examining potential associations with physical activity and obesity, including theoretically integrated under complex systems, urban design, and social structures. The different papers will examine the interplay and dynamics of urban form, travel behavior, physical activity, and obesity within the context of diverse socioeconomic conditions and race/ethnic populations within the Detroit Region.

Using Agent-Based Modeling to Study the Dynamics of Travel, Food Access, and Shopping Patterns in the Detroit Lower-East Side
Igor Vojnovic, Michigan State University; Arika Ligmann-Zielinska, Michigan State University; Timothy LeDoux, Westfield State University

Travel Behavior: Who is Responsible for Environmental Burdens?
Zeenat Kotval-K, Michigan State University; Igor Vojnovic, Michigan State University

Dining Out in Detroit: An Analysis of the Restaurant Travel Behaviors Reported by Residents of Two Detroit Neighborhoods
Jeanette Eckert, Michigan State University; Igor Vojnovic, Michigan State University
‘Transportation Disadvantaged’: Urban Form and Gendered Travel Behavior in the Detroit Region
Jieun Lee, Hunter College-City University of New York; Igor Vojnovic, Michigan State University; Sue Grady, Michigan State University

11:00am – 12:25pm P
TH11.00.20 - Exploring The State as ‘Vexed Institution’ in Urban Politics and Policy
Aqua 310B

Speaker(s): Beth Baker, Leigh Graham, Mara Sidney, Celina Su
Moderator: Alejandra Marchevsky

At last year’s colloquy, “Assessing the Role of the State in the Contemporary Urban,” several presenters explored the role of the state as either a positive force or a coercive force, with some panelists concluding that, though flawed, the state is “all we have” for advancing democracy in cities. This panel builds on last year’s colloquy by investigating how urbanists theorize and interrogate the state in empirical research, while understanding it as a complex and “vexed” institution. Moving beyond the argument about whether the state is “good” or “bad,” this panel asks how researchers take seriously in empirical work the notion that the state is, inherently, multiple. Multiplicity implies physical form or site, identity or goal, and a normative dimension. That is, the state consists of numerous institutions and actors pursuing various goals and exercising power in ways that are progressive, or potentially so, regressive, coercive and violent. How do scholars employ theoretically and empirically a complex conception of the state in urban research? Using lenses including “the differentiated state”, multi-level governance, the multiple state, and the imagined state, and applying them to the substantive policy areas of immigration policy, post-disaster recovery, and participatory budgeting, these papers offer theoretical and substantive examples of how to approach the state at this level of complexity in urban research.

“Differentiated States”: Disparate Governing Regimes in Rockaway, Queens
Leigh Graham, The City University of New York

Whither Redemocratizing Democracy in an Era of Austerity: New York’s Recent Experiences With Participatory Budgeting
Celina Su, Brooklyn College

The Multiple State and the Local Politics of Immigrant Integration
Mara Sidney, Rutgers University-Newark

The Imagined State: Undocumented Migration and State Sovereignty
Beth Baker, California State University, Los Angeles

1:30pm – 2:55pm C | **TH1.30.06 - Critical Appraisal of Don Norris' 'Metropolitan Governance in America'** |
|                  | Aqua 310B                                                           |
|                  | Speaker(s): Richard Feiock (Florida State University), Donald Norris (University of Maryland, Baltimore County), Hal Wolman (George Washington University) |
|                  | Moderator: Hal Wolman                                               |
|                  | The panelists will provide their critical appraisals of the contribution of Don Norris' METROPOLITAN GOVERNANCE IN AMERICA to the study of this important subject. |

1:30pm – 2:55pm C | **TH1.30.09 - Surfacing Counternarratives in Racial Justice: Examining Impact and Implications in Community-Based Research (ACTIVIST SCHOLARSHIP SESSION)** |
|                  | Aqua Salon E                                                       |
|                  | Speaker(s): Beth Baker-Cristales (California State University-Los Angeles), Cory Greene (CUNY-Graduate Center), Alejandra Marchevsky (California State University-Los Angeles), Whitney Richards-Calathes (CUNY-Graduate Center), Celina Su (CUNY-Graduate Center) |
|                  | Moderator: Gregory Squires (George Washington University)           |
|                  | (UAA-SAGE- and URBAN-sponsored colloquy) We propose to examine participatory and community-based research addressing issues of racial (in)justice in the United States. Beth Baker and Alejandra Marchevsky will reflect upon their research on U.S. deportation and immigrant detention policies, focusing on a collaborative, multi-media project they are developing with immigrant working-class students and an immigrant rights organization in Los Angeles. They will examine how insights and narratives from this project talk back to federal- and state-level mass incarceration and deportation policies. Whitney Richards-Calathes will draw upon her work as a researcher working on restorative Los Angeles and New York, discuss how power inequalities often reproduce traditional definitions of "expertise" in community-based research, and reflect upon the creation of a community-based research center and federal IRB. Cory Greene will draw upon his work with the Morris Justice Project, to examine the “non-negotiables” of community-based research as a tool in social justice, including the importance of radical inclusivity. Celina Su will examine participatory budgeting in New York, to examine how community-based initiatives ironically often reify rather than lessen racial inequalities, especially on education and policing issues, and what practices might be implemented in response. |
1:30pm – 2:55pm  C  TH1.30.12 - Neoliberalism and Urban Policy/Political Development in the U.S. and U.K.
Aqua Salon C

Speaker(s): Carolyn Adams (Temple University), Jonathan S. Davies (De Montfort University), Cedric Johnson (University of Illinois at Chicago), Joel Rast (University of Wisconsin-Milwaukee), Timothy Weaver (University of Louisville)
Moderator: David Imbroscio (University of Louisville)

This roundtable presents an analysis of Timothy Weaver’s new book, Blazing the Neoliberal Trail: Urban Political Development in the U.S. and the U.K., just published by the University of Pennsylvania Press. Weaver examines how the ideas and policies of “neoliberalism”—tax cuts, deregulation, slashing the welfare state—shaped urban policy and political development in cities in the U.K. and the U.S., while examining the role cities themselves played in promoting and constructing the neoliberal turn. The book draws on extensive archival research and interviews with key political actors to examine national-level policies, such as enterprise zones—place-based articulations of neoliberal ideas—and places through case studies of Philadelphia and London’s “Docklands.” Weaver argues that politicians like Ronald Reagan and Margaret Thatcher targeted urban areas as part of their far broader effort to remake the relationship between the market, state, and citizen. But while neoliberalization occurred in both countries, there is variation in the ways in which neoliberal ideas interacted with institutional frameworks and organized interests. Furthermore, these developments were not limited to a 1980s right-wing effort, but were also advanced by Bill Clinton and Tony Blair, whose “third-way” ultimately reinforced the neoliberal ideas and practices, though often by default rather than design. The enduring impact of these shifts is illustrated by President Obama’s recent announcement of “Promise Zones,” which despite appearances are cast in a neoliberal mold.

1:30pm – 2:55pm  C  TH1.30.14 - Opportunities in Emerging Tech Cities
Aqua Salon A/B

Speaker(s): Darin Dinsmore, Kevin Keller (Los Angeles Mayor’s Office of Economic Development), Howard Kozloff (Agora Partners)
Moderator: Howard Kozloff

Since the Industrial Revolution, no singular industry has physically altered cities nationwide as significantly as the technology sector. As the sector grows, cities must accommodate infrastructure, housing, and transportation necessary to sustain the growing workforce. This “problem” offers planners an unprecedented opportunity to diverge from long-term master plans of traditional planning, and embrace the dynamic planning required for the twenty-first century. The speakers will discuss major tech cities and ways in which the public sector instigates economic development and value-creation through entrepreneurial planning. Public sector representatives—Kevin Keller, Director of Planning for the Los Angeles Mayor’s Office of Economic Development, and Darin Dinsmore, of CrowdBrite—will discuss the public sector’s role in steering development toward citywide goals. Southern California developer Howard Kozloff, Managing Partner of Agora Partners, will discuss ways in which developers work within established public policies to achieve desirable outcomes. Overall, these speakers will emphasize the role of partnerships between planners and developers to capitalize on city-building opportunities while meeting public goals and objectives.
Thursday, March 17
Afternoon Events

1:30pm – 2:55pm  C  TH1.30.20 - Market Logics in Housing Policy and Practice: An Exploration of the Relationship Between Financialization and Privatization
Indigo Ballroom B

Speaker(s): Deshonay Dozier (The Graduate Center of the City University of New York), Desiree Fields (University of Sheffield), Catherine Guimond (San Francisco Art Institute), Amy Khare (University of Chicago), Benjamin Teresa (The Graduate Center of the City University of New York)
Moderator: Amy Khare

The domination of housing policy by market logic is a central feature of neoliberal urbanism, in theory and practice. But subsumed within the category of ‘market logic’ are diverse processes and frameworks, including privatization (selling or transferring public assets to private ownership) and financialization (the influence of financial logics, actors, and practices in “non-financial” domains). In this colloquy speakers will draw on insights from research in the realm of housing, considering the interrelations and tensions between financialization and privatization. Fields discusses how the state’s privileging of the interests of markets, financial institutions, and investors before and after the 2008 crisis have reinforced and extended financialization into the rental market. Teresa examines how the state manages financialization in privatized affordable housing production as an individualized-tenant legal problem, and how this approach circumscribes and/or provides new routes for collective political action. Khare discusses how the nexus of federal deregulation policy and political influence by an elite governing coalition coalesced to advance the privatization and financialization of Chicago’s public housing in the post-recession period, though not without organized resistance. Dozier discusses a second-wave property-tax revolt of Southern California’s propriety elites’ use of state property-tax le levee policy, which sought to produce affordable housing, but with elite planning subsidized and privatized urban redevelopment. Guimond investigates the work that new flows of capital into low-income housing do to overcome multiple forms of difference and make disinvested areas sites of accumulation.

1:30pm – 2:55pm  P  TH1.30.01 - Rural Migrants in Transitional Urban China: Marginality, Agency and Social Justice (II)
Indigo 202A

Speaker(s): Chaolin Gu, Ming Tian, Jun Wang
Sponsor(s): Georgia State University – Andrew Young School of Policy Studies, and the Lincoln Institute of Land Policy/Peking University-Lincoln Institute Center for Urban Development and Land Policy
Moderator: Jun Wang

Rural migrants in transitional urban China have received extensive scholarly attention from all social sciences disciplines. While the large corpus of studies on this peculiar social group have unraveled in depth their unequal access to citizenship, relatively less effort has been made to examine theoretically the uneven structure of power in which rural migrants are located. Yet, this structure of uneven power specifies an identity category that feeds into a variety of exploitative relations, not simply in the domain of economy, but in all aspects of the lifeworld. As Fulong Wu (2010) trenchantly argues, the curtailing of migrant welfare and the sequestration of this social group to a “state of exception” serves the state to preserve China’s competitiveness in a global market. Also, as
the three proposed panels attempt to cast some light, the state manipulates and appropriates differentiated citizenship to advance various ends of governance. As such, the cohort of authors assembled here avoid reading migrants’ marginality simply from an institutional perspective, but rather hope to examine the material socio-spatial processes in which marginality unfolds, evolves and constitutes social relations. In other words, we gauge the implications for social justice from the entry point of everyday life and mundane social, economic and cultural transactions. This approach thus enables scholars to attend to migrants’ agency to respond to and negotiate institutional infrastructure, by adopting a more interactive approach towards migrants’ lived experiences and their relation to the state. This panel is a continuation of the one submitted by Dr Junxi Qian, entitled Rural migrants in transitional urban China: marginality, agency and social justice (I). This second panel tries to unpack the status quo of migrants’ mundane lifeworld in the context of the dynamic socio-spatial restructuring of Chinese cities.

1:30pm – 2:55pm P  TH1.30.04 - Health, Education and Self-Help Housing in Low-Income Colonias in the Border and in Mexico  
Aqua Salon F

Speaker(s): Noah D Durst, Carlos Olmedo, Bara Safarova, Ariadna Itzel Reyes Sanchez, Peter Ward  
Sponsor(s): School of Global Policy & Strategy, Center for U.S.-Mexican Studies  
Moderator: Peter Ward

This panel presents original papers that explore the opportunities and constraints of residence in self-built colonias and other low income environments in the border and in Mexico. The authors discuss intersections between health (water borne diseases) and model subdivisions (MSRs) that superseded colonias in Texas; the dynamics and vulnerabilities associated with new developer practices in MSRs since the late 1990s; the education, employment trajectories and earnings outcomes of colonia school children; the greenhouse gas emissions associated with residence and transportation needs of living in peripheral or peri-urban low income housing; and (for profit) CEMEX's role in supporting self-building construction practices in Mexico.

**TH1.30.05 - Trends in U.S. Public Housing Policy**

**Indigo 206**

**Speaker(s):** Matthew Gebhardt, Amanda Kass, Alex Schwartz, Lawrence J. Vale  
**Moderator:** Amanda Kass

In its 1992 report the National Commission on Severely Distressed Public Housing declared that distressed public housing in the United States was a “national disgrace.” Moreover, the Commission argued that severely distressed public housing was not just a matter of fixing the physical condition of buildings, but also addressing the “human condition of residents.” Since the Commission issued its report sweeping changes to federal policy have occurred that are, arguably, intended to improve the livelihoods of low-income households and the physical condition of housing developments. However, these policy changes have occurred at the same time that federal funding for public housing has been declining in real, inflation-adjust dollars. Sequestration of the federal budget, which began in 2013, has further stressed the finances of PHAs because it has led to additional cuts in federal funding. Given a lack of adequate public funds and capital backlog needs that exceed $26 billion, how can PHAs repair existing housing and preserve affordable housing? To explore this topic, this panel focuses on three relevant federal policies: HOPE VI, the Rental Assistance Demonstration (RAD), and Moving to Work (MTW).

**RAD and the Future of Public Housing in the United States**

Searching for Silver Linings: Does Segregation Offset Minority Patient Discrimination From Healthcare Providers?
Joseph Gibbons, San Diego State University; Tse-Chuan Yang, University at Albany
Climate change is increasingly shaping the social, political, and economic contexts of cities. International and national leaders view cities as climate change leaders. A recent summit held in Los Angeles, and attended by the lead climate change negotiators for the U.S. and China, highlighted the role for cities in implementing climate change policies and providing support for each country’s initiatives. Indeed, each year more cities pledge to dramatically reduce their GHG emissions despite the increasingly apparent political and financial obstacles to implementation. Cities are also where adaptation strategies – efforts to adjust social and physical systems to the new conditions generated by climate change – are being piloted. Increased temperatures, changes in precipitation, and rising sea levels are beginning to inform decisions about infrastructure investment, housing, and service delivery. This organized, two-panel session highlights the important questions these developments raise for urban studies and the research programs that are tackling them. The first panel focuses on mitigation, or the reduction of GHG emissions in cities. What role do city governments play? How do transnational networks and multiple sources of capacity shape local outcomes? Papers in this panel explore these questions using the experiences of cities in the U.S., Canada, and Germany. The second panel focuses on adaptation, examining the emergence of adaptation actions and policies in cities and evaluating their implications for urban residents. How and when do cities decide to adapt? How do these decisions interact with existing urban political and social stratifications? Panel participants use the experiences of cities in the U.S. and the Global South with climate change adaptation to explore these questions. In each panel we will devote time to discussing the broader theoretical contributions that come from better understanding the relationship between cities and climate change.

Thursday, March 17
Afternoon Events

**Digital Urbanities Among Urban and Digital Landscapes**
Julia Nevarez, Kean University

2:55pm – 3:15pm  M  **Coffee Break**
Indigo West Foyer

3:15pm – 4:40pm  C  **TH3.15.00 - Activist Scholar Award Recipient Colloquy on Promoting Affordable Housing Through Research and Action**
Aqua Salon E

Speaker(s): Nico Calavita, Ken Grimes, Stephen Russell

The 2016 recipient of the UAA-SAGE Marilyn J. Gittell Activist Scholar Award is Nico Calavita, Professor Emeritus, San Diego State University. Dr. Calavita will discuss his efforts over the years to advance affordable housing in San Diego, the State of California, and urban communities across the globe. Comments will be offered by Ken Grimes, Executive Director of the City Heights Community Development Corporation, and Stephen Russell, Executive Director of the San Diego Housing Federation.

Ken Grimes is a former student of Dr. Calavita, who help lead the passage of the San Diego Housing Trust Fund and inclusionary housing legislation. Mr. Grimes holds a Masters in City Planning from San Diego State University and undergraduate degree in sociology from the University of Bath, England. Stephen Russell has a 20-year history working in community and economic development in the Mid-City region of San Diego. He has been President of the City Heights Community Development Corporation. Prior to joining the San Diego Housing Federation as its Executive Director, Stephen was a member of the firm Platt/Whitelaw Architects, Inc., a firm specializing in sustainable design. Mr. Russell is a 2005 graduate of the NewSchool of Architecture & Design.

3:15pm – 4:40pm  C  **TH3.15.09 - Understanding Jerusalem’s Conflict: A Look at Jerusalem: The Spatial Politics of a Divided Metropolis by Anne B. Shlay and Gillad Rosen, 2015, Polity**
Aqua Salon C

Speaker(s): Rachel Garshick Kleit (Ohio State University), Zachary Neal (Michigan State University), Deirdre Oakley (Georgia State University), Elena Vesselinov (Queens College/CUNY)

Moderator: Anne Shlay (Georgia State University)

This session discusses Shlay and Rosen’s recent book. The book explores the political and social struggles around control over space and development in Jerusalem, one of the world’s most important cities and the location of intense struggle. This panel will critically evaluate the contributions of the book. Is the book’s empirical focus on demystifying Jerusalem’s complexity useful in aiding the resolution of entrenched conflict? Does the book help to develop methods for enhancing the peace process? Ultimately, what does this book say about the future of this divided city and the possibility for a negotiated resolution?
TH3.15.10 The Promise of Two-Generation Strategies: Lessons From the Field
Aqua 313

Speaker(s): Mary Bogle (Urban Institute), Rosa Maria Castaneda (Annie E. Casey Foundation), Katherine Freeman (United Way of Santa Fe County), Marjorie Sims (Ascend at The Aspen Institute)  
Moderator: Marjorie Sims

Two-generation models are designed to address the multidimensional aspects of family poverty and seek to intentionally integrate services for children with services for their parents with the goal of “moving the needle” in longer and better ways for both. While there is a resurgence of interest in two-generation models, there is little evidence about what it takes to implement an effective program, or what such a model looks like on the ground. In particular, we need to know more about what true service integration looks like, why and how it matters for families, and the critical role of the case managers or coaches in ensuring that services are appropriate and mutually-reinforcing. This session explores these issues drawing on research findings from the early implementation experiences of three different two-generation models: The Annie E. Casey Foundation’s Family Economic Success-Early Childhood (FES-EC) and Family-Centered Community Change (FCCC) initiatives; The Urban Institute’s Housing Opportunities and Services Together (HOST) Demonstration, and The United Way of Santa Fe County. Discussants will offer lessons for the field, drawing on the knowledge and experience of Aspen’s Ascend Initiative, which has taken the lead in promoting two-generation strategies.

TH3.15.20 - Re-Thinking Justice in the City in the Wake of Ferguson and Baltimore
Indigo Ballroom B

Speaker(s): Jill Simone Gross (Hunter College), Michael Owens (Emory University), Cathy Schneider (American University), Todd Swanstrom (University of Missouri-St. Louis), Henry Taylor (University at Buffalo)  
Moderator: Todd Swanstrom

The protests that erupted (and are still erupting) in the wake of recent instances of policy brutality and misconduct in Ferguson and Baltimore were motivated by a deep sense of injustice. Putting these protests in context, what do they mean for urban politics and policy? Are they essentially a replay of the protests of the Sixties? Did the victories of the civil rights movement make any difference? Is racism as bad as ever? Or are there new spatial and economic inequalities driving events today? How can leaders respond to these movements? Are the new movements for urban justice unique to the United States or is this a global movement? The colloquy includes a speaker from St. Louis, as well as speakers who have studied social movements around the United States and in other countries.

**TH3.15.04 Pathways to Regional Economic Resilience**

Aqua Salon A/B

Speaker(s): Kyle Fee, Edward Hill, Fran Stewart
Moderator: Edward Hill

Understanding why some regions are more resilient than others in the face of economic adversity remains a top priority for urban scholars and practitioners. Connections between economic geography, technology, labor markets, educational attainment, hierarchy, and history can confer lasting regional competitive advantage and competitive disadvantage. While innovation and creativity are vital components of the resilience equation, economic vitality is also closely tied to industry cycles, regional portfolios of traded-sector industries, and occupational structure. This session will consist of papers examining variation in the economic resilience of U.S. metropolitan regions from industrial-, occupational-, and skills-based perspectives.

**The Resilience of U.S Metropolitan Economies During the Great Recession**

Edward Hill, Ohio State University; Hal Wolman, George Washington Institute of Public Policy; Kelly Kinahan, Cleveland State University

**Identifying Opportunity Occupations in the Largest U.S. Metropolitan Regions**

**TH3.15.05 Race, Opportunity, and Gentrification: The Role of Urban Politics and Communities**

Indigo 204A

Speaker(s): Andrew J. Greenlee, Stacy Harwood, Willow Lung-Amam, Carolina Sarmiento, Stacey Sutton
Moderator: Gerrit-Jan Knapp

From colonial planning to contemporary urban gentrification, race and class power and privilege have long shaped the urban landscape and processes of urban change. In this session, we look back at the early roots of the planning profession and move through to the present politics of urban redevelopment and renewal to investigate the ways in which race and class have been central to discourses over and the actual processes of neighborhood change. Our papers draw from diverse urban geographies and communities—from neighborhoods comprised largely of low-income Latino immigrants in California and African Americans in inner city Baltimore, to diverse neighborhoods in New York and postcolonial Hong Kong. In all these places we find a struggle over the
Afternoon Events

rights of disadvantaged groups to remain in place, increase access to opportunities, and be included among the beneficiaries of neighborhood change. Our primary questions settle on the role of urban politics and policy in shaping certain narratives about the city and neighborhoods that enable processes of displacement and the roles of communities in fighting back for a place at the table. Our papers contemplate the possibilities for inclusive and equitable urban change, when urban planners and policy makers better listen to, make room for, and empower more voices in the processes that shape and reshape cities.

Opportunity for Whom? The Diverse Definitions of Neighborhood Opportunity in Baltimore

**TH3.15.13 - Cities and Climate Change: The Big Questions, Current Research, and Theoretical Contributions to Urban Studies (PART II)**
Aqua 307

*Speaker(s):* Eric Chu, Scott Kalafatis, Andrea Sarzynski  
*Moderator:* Andrea Sarzynski

Climate change is increasingly shaping the social, political, and economic contexts of cities. International and national leaders view cities as climate change leaders. A recent summit held in Los Angeles, and attended by the lead climate change negotiators for the U.S. and China, highlighted the role for cities in implementing climate change policies and providing support for each country’s initiatives. Indeed, each year more cities pledge to dramatically reduce their GHG emissions despite the increasingly apparent political and financial obstacles to implementation. Cities are also where adaptation strategies – efforts to adjust social and physical systems to the new conditions generated by climate change – are being piloted. Increased temperatures, changes in precipitation, and rising sea levels are beginning to inform decisions about infrastructure investment, housing, and service delivery. This organized, two-panel session highlights the important questions these developments raise for urban studies and the research programs that are tackling them. The first panel focuses on mitigation, or the reduction of GHG emissions in cities. What role do city governments play? How do transnational networks and multiple sources of capacity shape local outcomes? Papers in this panel explore these questions using the experiences of cities in the U.S., Canada, and Germany. The second panel focuses on adaptation, examining the emergence of adaptation actions and policies in cities and evaluating their implications for urban residents. How and when do cities decide to adapt? How do these decisions
interact with existing urban political and social stratifications? Panel participants use the experiences of cities in the U.S. and the Global South with climate change adaptation to explore these questions.

**Exploring the Commitment to Act on Climate Change Adaptation in Baltimore**
Andrea Sarzynski, University of Delaware

Ravi Ghadge, Kennesaw State University

3:15pm – 4:40pm

**TH3.15.19 - Theory and Politics of Ethnic Retail Districts**  
Aqua 314

Speaker(s): Kimberley Kinder, Antonie Schmiz, Qingfang Wang, Zhixi Zhuang  
Moderator: Kimberley Kinder

Ethnic retail districts are important social, economic, cultural, and political spaces embedded in nearly every major metropolitan area in North America and Western Europe. Although ethnic enclaves and immigrant specialty stores are nothing new, recent developments in transportation and communication technologies, shifting demographic profiles of immigrant elites, and growing popular interest in world market consumer culture is transforming the form, function, location, and significance of ethnic retail districts. This panel analyzes the theoretical and practical implications of these transformations by exploring ethnic shopping districts through the lenses of translocal mobility, suburban revitalization, urban branding, and business entrepreneurship. Presentations include data from Muslim Arab-American enclaves in the inner-ring suburbs of Detroit, Chinese and South Asian shopping centers in the distant suburbs of
Toronto, comparative data from Vietnamese and South Asian wholesale centers in Berlin and Toronto, and Latino communities in Charlotte. Collectively, these presentations highlight the shifting politics of ethnic retail districts and their important theoretical implications for metropolitan environments.

**FR7.15.05 - Directing Urban Research Centers in a Time of Austerity**  
Indigo Ballroom C/D

*Speaker(s): William M. Rohe (University of North Carolina at Chapel Hill)*

This session is designed to give the directors of urban research centers an opportunity to meet and to discuss questions of mutual concern. We will start a discussion of the ways participants have responded to ongoing cutbacks in funding for urban research and then move on to other topics of interest.

7:15am – 8:00am  B

**FR7.15.06 - Increasing Diversity Among University Faculty: What Can Be Done?**  
Indigo Ballroom C/D

*Speaker(s): Tia Burroughs (New Connections)*

During this roundtable, participants will discuss ideas on what could be done to improve the representation of scholars from under-represented backgrounds in academia. There will be discussion of research on this topic as well as an opportunity for participants to share their own experiences and insights. Also, participants will learn about the New Connections program, which is a professional development program aimed at increasing the numbers of underrepresented scholars that conduct health related research.

7:15am – 8:00am  B

**FR7.15.02 - Fulbright Scholar Program Support for Urban Affairs**  
Indigo Ballroom C/D

*Speaker(s): Silvija Stoljevska (Institute of International Education)*

The Fulbright Scholar Program, sponsored by the United States Department of State, offers long and short grants supporting teaching and research opportunities across the globe. With awards in specific disciplines as well as more than 400 that allow application in any of a number of academic specializations, the Fulbright Core and Specialist Programs are an excellent venue for expanding individual and institutional horizons. Because Fulbright is inherently malleable, it suits virtually every traditional field and incorporates ever-developing cross-discipline permutations. There are Fulbright grantees in urban affairs, urban planning, public administration, human geography, anthropology, sociology, law, environmental science and sustainable development. This breakfast roundtable will present the various options open to scholars of urban affairs in more than 125 countries around the world. In its annual Core competition and its short-term, collaborative Specialist Program, Fulbright sends Americans abroad and, in addition, welcomes visiting scholars to U.S. campuses. With the Urban Affairs Association meeting in March, 2016, the Fulbright Core Program’s annual competition will have just opened in
February. Thus, this discussion will be about the latest and most current competition, giving attendees the opportunity to discuss Fulbright, generally, as well as be informed about what is offered for Academic Year 2017-2018. For scholars of urban affairs with a desire to create or extend their global reach, the breakfast roundtable will be an excellent venue for exploring the United States Government’s flagship international educational program.

7:15am – 8:15am

**FR7.15.04 - Urban Studies Undergraduate Honor Society**
Indigo Ballroom C/D

*Speaker(s): Greg Andranovich (Cal State LA), Edith Barrett (University of Connecticut)*

The purpose of this roundtable is to introduce to the wider UAA audience the recently approved UAA-sponsored undergraduate honor society slated to begin recruiting campus chapters in Fall 2016. The discussion will focus on the benefits of the honor society for students and campuses and the how-to of starting a chapter. The goal of the roundtable is to inform UAA members of the honor society and to excite them about setting up a chapter on their home campus. The intended audience is faculty members from colleges and universities with undergraduate urban studies/urban planning/urban affairs majors.

8:05am – 9:30am

**FR8.05.21 - Municipal Finance: Fiscal Stress and Municipal Strategies**
Aqua Salon D

*Speaker(s): Evgenia Gorina, Richard Hula, Michael T. Peddle*

*Moderator: Michael T. Peddle*

**Advisor vs. Underwriter: Costs of Information Asymmetry in Municipal Debt Issuance**
Evgenia Gorina, University of Texas at Dallas; Jing Wang, California State Polytechnic University

**Non-Resident Users of Government Facilities and Services: Should They be Charged More?**
Michael T. Peddle, Northern Illinois University

**Private Lending and Public Redevelopment: The Case of Detroit**
Richard Hula, Michigan State University; Marty Jordan, Michigan State University

8:05am – 9:30am

**FR8.05.01 - Remembering David W. Bartelt, 1944-2015**
Aqua 311B

*Speaker(s): Carolyn Adams (Temple University), Claudia Coulton (Case Western Reserve), David Elsh (Temple University), Barbara Ferman (Temple University), Dennis Keating (Cleveland State University), Leslie Martin (University of Mary Washington), Michael Rich (Emory University), Gregory Squires (George Washington University)*

*Moderator: Sabina Deitrick (University of Pittsburgh)*

We will remember and celebrate the life and work of David Bartelt, a respected scholar, teacher, mentor, and friend to many in the Urban Affairs
Friday, March 18
Morning Events

Association. David was well known for his contributions to scholarship on cities, particularly in the areas of housing policy, neighborhood development and regional and community indicators. He was a co-director of the Metropolitan Philadelphia Indicators Project and a representative to the National Neighborhood Indicators Partnership, headquartered at The Urban Institute. All are welcome to attend and share their memories and thoughts of David.

8:05am – 9:30am C FR8.05.05 - HUD’s New “Affirmatively Furthering Fair Housing” (AFFH) Rule: Revolution or Rehash?
Indigo Ballroom B

Speaker(s): Dan Immergluck (Georgia Institute of Technology), Michael Lens (University of California at Los Angeles), Alex Schwartz (The New School)
Moderator: Dan Immergluck

This colloquy will discuss various aspects of the U.S. Department of Housing and Urban Development’s formulation and implementation of its new Affirmative Furthering Fair Housing rule, issued in 2015. The rule has stirred a great deal of attention, especially with regard to its potential for encouraging state and local governments to pay more attention to the fair housing aspects of their housing and community development efforts. With renewed attention on economic and racial segregation and its effects, the rule has received even more attention than it might have otherwise. Previous efforts to strengthen HUD’s role in encouraging local governments to further fair housing have often met with great political resistance. Will the current effort meet the same obstacles? Potential discussion questions include: • What does it mean to “affirmatively further fair housing”? What do the regulations suggest? How clear are they? Are they effectively written? • What added value do the new AFFH mapping tools bring to the AFFH process? Will new data and new mapping tools add major value to the process? Will they fundamentally change the process? • How will states or localities actually measure their AFFH efforts/progress? Will they use some sort of standardized measures or indicators? How should local or state efforts be measured? • How much direction should or will HUD give as the process unfolds? Will HUD simply be a data provider or will it (help) develop measures? • How realistic is it for the new rules to actually impact fair housing actions? Will they make any difference? Will AFFH just revert back into the “old” AI process? • Will HUD add teeth the process in terms of actually withholding HUD funding from governments making insufficient process in AFFH?

8:05am – 9:30am C FR8.05.11 - Who Speaks for Justice? Raising our Voices in the Noise of Hegemony
Aqua 310B

Speaker(s): Maria Lovett (Florida International University), Ojohari Moses (The Young People’s Project), Joan Wynne (The Algebra Project)
Moderator: Joan Wynne

My country. My country. Tis of thee I sing. Country still unborn Sweet land yet to be Four panelists will discuss their out-reach to specific communities to break the boundaries in this country between the academic world and the lives of children, parents, and families caught in a vise of inferior schools and oppressive public policies. Panelists will tell theirs and the community’s stories in
creating networks that challenge the status-quo of failing institutions. While telling the narratives of small victories rising from those challenges, we will engage the audience in conversations that broaden the context of how we gather together to transform ourselves and our academic communities to better serve our cities. Conscious of the joy amidst the angst in the struggle against hegemony, we offer this panel discussion as an enticement to explore each other’s stories about our battles to be free, as researchers, teachers, learners, citizens. How do we step outside the lines of privilege that we may occupy, while seeking to extricate ourselves from the scholastic shackles that we wear? As a counter to our professional privilege, how do we begin to listen not just to persons with national reputations in circles of justice, but also to youth, friends, and strangers in diverse communities? How do we invite and investigate their lessons, challenges, joys, triumphs, questions? And in sharing those explorations, can we discover what sustains us “from the inside when all else falls away.” But, beyond that, can this process help us to determine together “. . . if we can get up, after a night of grief and despair, weary and bruised to the bone, and do what needs to be done to feed [and teach] the children” (Oriah) in our communities, in our schools, and in this “country still unborn.”

8:05am – 9:30am  C FR8.05.12 - What Are Book Editors Looking For? Ask Them!
Aqua Salon A/B

Speaker(s): Douglas Hildebrand (University of Toronto Press), Michael McGandy (Cornell University Press), Fredric Nachbaur (Fordham University Press), Juliana Pitanguy (Springer Publishing), Nicole Solano (Routledge/Taylor & Francis)
Moderator: Michael McGandy

Senior editors from top publishers talk candidly about book publishing for academic authors. Unique opportunity to ask questions of knowledgeable and experienced book editors.

8:05am – 9:30am  FR8.05.20 - Publishing in Urban Affairs Journals: Editors’ Perspectives
Aqua Salon E

Speaker(s): Jered Carr (University of Illinois at Chicago), Laura Reese (Michigan State University), Igor Vojnovic (Michigan State University)
Moderator: Laura Reese

This colloquy is organized by the editors of the Journal of Urban Affairs. The panelists are editors from the Journal of Urban Affairs and Urban Affairs Review and they will discuss “how to” and “what not to do” to publish successfully in urban affairs journals. The panel will also discuss the importance and the role of reviewers and how to be a good reviewer.

8:05am – 9:30am  FR8.05.02 - Creative Spaces and Places in Asia's Urban Areas
Indigo 202A

Speaker(s): Yanjun Cai, Nirupama Jayaraman, IL Lee
Sponsor(s): Georgia State University – Andrew Young School of Policy Studies, and the Lincoln Institute of Land Policy/Peking University-Lincoln Institute Center for Urban Development and Land Policy
Moderator: Wen Wang

Urban Governance of Creative Spaces in Guangzhou
Yanjun Cai, University of Hawai‘i at Manoa

The Street Market Experience: Exploring The Interplay Of Space And Place
Nirupama Jayaraman, Indian Institute of Technology, Madras

The Role of Shopping Mall in Urban Planning and Design in The 21th Century, South Korea: Location, Relation with Neighborhood and Developer
Il Lee, Seoul National University; Joo Hyun Park

8:05am – 9:30am  P  
FR8.05.03 - Social Equity Struggles and Outcomes in Central and South America and the Caribbean
Indigo 2028

Speaker(s): Jaycee L. Bigham, Sarah Miller Boelts, Natalia Villamizar Duarte, Sukari Ivester, Valerie A. Purry
Moderator: Natalia Villamizar-Duarte, University of Illinois at Chicago
Session Coordinator: Soledad Arqueros, Universidad de Buenos Aires-Argentina

Shifting School Demographics and Educational Equity: Argentine School Personnel Perspectives on Andean and Paraguayan Immigrant Students and Families in Buenos Aires
Jaycee L. Bigham, University of California, Santa Barbara

Removal, Resistance and the Right to the (Olympic) City

10:30am – 11:55am  C  **FR10.30.05 - The Fair Housing / Community Development Debate**
Indigo 204B

Speaker(s): Karen Chapple (University of California, Berkeley), Edward Goetz (University of Minnesota), David Imbrosco (University of Louisville), Elizabeth J. Mueller (University of Texas)
Moderator: Edward Goetz
Fair housing advocates frequently criticize the placement of subsidized and affordable housing in disadvantaged neighborhoods. This is considered by such advocates as reinforcing patterns of segregation and concentrated poverty. Fair housing advocates are suspicious of such practices even when they are characterized as part of larger revitalization strategies. Some in the movement have even taken to calling community developers a “poverty housing industry.” This stance puts them at odds with community development practitioners who see affordable and better quality housing as an important need in disadvantaged neighborhoods, and as a legitimate policy objective in such neighborhoods. Although this tension has always been a part of affordable housing policy, the debate has heightened over the past 10 years. Several national summits have occurred to attempt to bring fair housing advocates and community development practitioners together to resolve these issues (to little avail). This colloquy brings together four experts on the issue. Our presentations will examine this debate and the various policy and normative elements that underpin the two arguments. Finally, the two positions will be examined in light of changing demographic patterns in American cities, and the recent Supreme Court ruling on disparate impact, and recent HUD regulations related to Affirmatively Furthering Fair Housing.

10:30am – 11:55am C FR10.30.11 - Municipal-University Partnerships for Sustainable Communities- Lessons From the Sage Project at San Diego State University
Aqua 305

Speaker(s): Bruce Appleyard (San Diego State University), Jessica Barlow (San Diego State University), Shawn Flanigan (San Diego State University), Brad Raulston (City of National City)
Moderator: Shawn Flanigan

The Sage Project is part of the Educational Partnerships for Innovation in Communities (EPIC) Network, and is based on the highly successful and award winning Sustainable City Year Program at the University of Oregon. Like the project in Oregon, the Sage Project at SDSU engages hundreds of students each year who invest thousands of hours assisting communities in the region. During this colloquium, the Director of the Sage project will discuss its origins and the model advanced at several universities nationwide. Three faculty from the SDSU School of Public Affairs will discuss applied projects in National City, the region’s highest density and lowest per-capital income city on the U.S. side of the border. Finally, the Director of Economic Development for National City will discuss the impact this partnership has had on the city, and if and how the locality has integrated student recommendations and findings.

10:30am – 11:55am FR10.30.19 - A Memorial to the Life and Scholarship of Don Phares
Aqua 311A

Speaker(s): Dan Monti (Saint Louis University), Donald Norris (University of Maryland, Baltimore County), Mark Rosentraub (University of Michigan), Todd Swanstrom (University of Missouri-St. Louis)
Moderator: Donald Norris

This colloquy will focus on the contributions of long time UAA member Don Phares (1942-2015) to the Urban Affairs Association, urban scholarship, his university (University of Missouri-St. Louis), the St. Louis region and the profession.
Friday, March 18
Morning Events

10:30am – 11:55am FR10.30.20 - Getting Tenure/Promotion - Teaching/Service Strategies (COLLOQUY ORGANIZED BY UAA VICE CHAIR)
Aqua 311B

Speaker(s): Barbara Ferman (Temple University), Nicole Ruggiano (Florida International University), Robert Silverman (University of Buffalo), Henry Taylor (University of Buffalo), Joan Wesley (Jackson State University)
Moderator: Robert Silverman

The transition to a tenure track position in higher education presents early career scholars with a number of new challenges. Among them is the need to balance research, teaching, and service obligations. Too often, junior faculty members are asked to manage these responsibilities without a great deal of advice from senior faculty. This colloquy was organized to bridge this gap. In it panelists will identify strategies for balancing research, teaching, and service obligations, with a particular focus on teaching and service. They will also discuss pitfalls to avoid in these areas. Topics to be addressed include seeking mentors, the use of technology, peer and student teaching evaluations, course preparations, various types of service (professional, university, departmental, and community), and administrative responsibilities.

10:30am – 11:55am FR10.30.01 - Rural Migrants in Transitional Urban China: Marginality, Agency and Social Justice (III)
Indigo 202A

Speaker(s): Shaowei Chen, Sea Eun Cho, Shenjing He, Bo Zhang
Sponsor(s): Georgia State University – Andrew Young School of Policy Studies, and the Lincoln Institute of Land Policy/Peking University-Lincoln Institute Center for Urban Development and Land Policy
Moderator: Shenjing He

Rural migrants in transitional urban China have received extensive scholarly attention from all social sciences disciplines. While the large corpus of studies on this peculiar social group have unraveled in depth their unequal access to citizenship, relatively less effort has been made to examine theoretically the uneven structure of power in which rural migrants are located. Yet, this structure of uneven power specifies an identity category that feeds into a variety of exploitative relations, not simply in the domain of economy, but in all aspects of the lifeworld. As Fulong Wu (2010) trenchantly argues, the curtailing of migrant welfare and the sequestration of this social group to a “state of exception” serves the state to preserve China’s competitiveness in a global market. Also, as the three proposed panels attempt to cast some light, the state manipulates and appropriates differentiated citizenship to advance various ends of governance. This panel is the continuation of the two panel proposals submitted respectively by Dr Junxi Qian and Dr Jun Wang, entitled Rural migrants in transitional urban China: marginality, agency and social justice (I) and (II). This final one of the series of panels avoids the trap of institutionalism, and draws our attention to the ways in which migrants negotiate marginality, develop coping tactics and create new possibilities of integration and empowerment.

10:30am – 11:55am  P  FR10.30.14 - Interrogating 'The Everyday' in Urbanism, Planning and Design Discourse and Practice
Aqua Salon A/B

Speaker(s): Sara Ortiz Escalante, Timothy O. Imeokparia, Elizabeth Sweet, Matthew Wilson
Moderator: Timothy O. Imeokparia

We interrogate different aspects of ‘the everyday’ as it has become a ubiquitous term in urban theory, planning, and design discourses and practice. As the term was picked up by planning and design scholarship it has become a touchstone for equity planning and community based approaches to development that also celebrated the power and importance of working class and poor people without challenging the structural context that positions people as working class and poor. The exclusive focus on the everyday also ignores the everynight, which is a significant hole in our understanding of cities and communities. Through our critical examination of the everyday we hope to provide a platform from which a reformulation and understanding of the concept would lead to the transformative power of the everyday. How might we develop new ways of using the everyday that reimage relationships of individuals and structures to make cities and communities better? How can we better adapt the concept as it travels from other disciplines to planning and urban discourse and design? What are the limits and or opportunities of the everyday as a concept in planning as it relates to violence against women? This panel respond to these questions with theoretical and practical reflections.

Aqua Salon D

Speaker(s): Maureen Donaghy, Louise Jezierski, Jacob Lesniewski, Greg Schrock, Ronald Vogel
Moderator: Ronald Vogel

There is a serious gap between the problems faced by 21st century cities and their proposed solutions, which are often ad hoc, incremental, siloed, and symbolic. Critics have well documented the inadequacy of current urban policies. However, they have offered few specific alternatives to realize a progressive agenda. How can progressive movements in cities be encouraged and supported to become full-fledged political alternatives? What types of
policies, administrations, and governance systems are required to anchor a progressive city? For this panel, we welcome both conceptual and case-focused papers that examine how to action the progressive city with the view to create a research network that can translate progressive theory to practice.

1:45pm – 3:10pm  C  FR1.45.05 - Authors Meet Critics: Chaskin and Joseph’s
Integrating the Inner City
Indigo 204B

Speaker(s): Raphael Bostic (University of Southern California), Robert Chaskin
(University of Chicago), Lynne Manzo (University of Washington), Susan Saegert
(City University of New York)
Moderator: Robert Chaskin

Three leading urban scholars from a mix of disciplines will provide their
reflections on the 2015 book Integrating the Inner City: The Promise and Perils of
Mixed-Income Public Housing Transformation. For many years Chicago’s
looming large-scale housing projects defined the city, and their demolition and
redevelopment—via the Chicago Housing Authority’s Plan for Transformation—
has been perhaps the most startling change in the city’s urban landscape in
the last twenty years. The Plan, which reflects a broader policy effort to remake
public housing in cities across the country, seeks to deconcentrate poverty by
transforming high-poverty public housing complexes into mixed-income
developments and thereby integrating once-isolated public housing residents
into the social and economic fabric of the city. Chaskin and Joseph draw on
five years of field research, in-depth interviews, and volumes of data to
demonstrate that while considerable progress has been made in transforming
the complexes physically, the integrationist goals of the policy have not been
met. They provide a highly textured investigation into what it takes to design,
finance, build, and populate a mixed-income development, and they
illuminate the many challenges and limitations of the policy as a solution to
urban poverty.

1:45pm – 3:10pm  C  FR1.45.12 - The Intersection of Education and Social Justice:
Mapping the Research and Advocacy Fields (ACTIVIST
SCHOLARSHIP SESSION)
Aqua Salon E

Speaker(s): Barbara Ferman (Temple University), Ryan M. Good (Rutgers
University), Julia Sass Rubin (Rutgers University)
Moderator: Julia Sass Rubin

Over the past twenty years, neoliberal school reforms have gained increasing
momentum across the United States, emphasizing school choice, market
discipline, standardized testing, high-stakes evaluation, privatized
management, and the reframing of public education as a site for capital
investment. Understanding the intersections between these reform strategies
and questions of social justice, community development, and urban policy
requires interdisciplinary engagement that bridges the confines of traditional
academic disciplines. Increasingly, scholars of psychology, education, politics,
sociology, urban studies, economics, and planning, among others, are
examining the broader impacts of these neoliberal reforms, particularly on our
most vulnerable communities. UAA, which brings together interdisciplinary
scholars interested in issues of social justice and urban policy, is the perfect
venue for that conversation to take place. This colloquy will enable UAA
participants to map the research questions at the intersection of neoliberal
school reforms, social and economic justice, community development and
urban policy and to explore how that research can be connected to policy
advocacy and local activism. Participants will discuss their research and/or
research that they are familiar with; collectively frame the research questions
that emerge; explore the different methodologies employed; and begin to
connect the dots across research areas. We will then explore how this research
can be connected to policy advocacy and local activism work.

1:45pm – 3:10pm
FR1.45.20 - Getting Tenure/Promotion —
Research/Publication Strategies
(COLLOQUIY ORGANIZED BY UAA VICE CHAIR)
Aqua 311B

Speaker(s): Katrin Anacker (George Mason Univ), Maria Martinez-Cosio (Univ of
texas – Arlington), Michael Owens (Emory Univ), Anna Santiago (Michigan
State Univ), Todd Swanstrom (Univ of Missouri - St. Louis)
Moderator: Robert Silverman (Univ at Buffalo)

Conducting research and disseminating results from it are core scholarly
activities. To increase their chances of obtaining tenure, new faculty are often
encouraged to publish early and often. This colloquy was organized so junior
faculty can benefit from the insights of senior scholars about how to develop a
research program and navigate the publication process. Topics to be
discussed include: the scope of publication outlets (journals, books, etc.), the
peer review process, the selection of journals to submit manuscripts to, how
single-authored and co-authored publications are weighed, and the roles of
funded and unfunded research in the early stages of academic careers.

3:40pm – 5:05pm  FR3.40.04 - Showing of Film: Andrew Young's Making of Modern Atlanta
Aqua 314

Speaker(s): Andrea Young (Georgia State University)

Told through Mayor Andrew Young’s personal perspective, this film highlights Atlanta’s transformation from a small, provincial Deep South city to an international metropolis. Helping to bring minorities and women into the city’s economy, Young used a strategy he calls “public-purpose capitalism” to promote job creation and business joint ventures, where public sector leaders set the purpose and private capital implements projects.

3:40pm – 5:05pm  FR3.40.05 - Embedded [or In Bed With]? Navigating the Moral Hazards of Being an Activist Housing Researcher (ACTIVIST SCHOLARSHIP SESSION)
Indigo 204A

Speaker(s): Amy Khare (University of Chicago), Lynne Manzo (University of Washington), Susan Saegert (The Graduate Center of the City University of New York), Janet Smith (University of Illinois Chicago)
Moderator: Amy Khare
As low-income housing around the world is being transformed, researchers have worked to document and challenge housing policies and practices. Often hired by public agencies, such as housing authorities, researchers become embedded in complex relationships and multiple obligations. This gets tricky...Who is the beneficiary of our research? Can our research make a difference in the lives of low-income people now and in the future? To whom do we feel most obligated in conducting this research? How do we interpret the “public good” in this work? In short, how do we navigate the moral hazards of activist research? This colloquy will examine the ethical dimensions of doing activist research on low-income housing and with the people who live in it, along with the always challenging dynamics of the researcher-agency relationships. We will discuss the practical strategies that have been used to gain access to residents and administrators/stakeholders, and the challenge of “using” the data. Reflecting on our own experiences, we will compare, contrast and debate the use of the feminist “ethic of care” as a suitable framework for understanding the moral dimensions of this research. This framework will also be compared to Rawlsian “ethics of justice.” How can this “ethic of care” inform our work and what does it offer that justice cannot? This exploration will raise methodological and moral questions that will benefit from discussion during (and we hope long after) this colloquy.

**FILM SCREENING OF DOCUMENTARY “TESTED”**——The gap in opportunities for different races in America remains extreme. Nowhere is this more evident than our nation’s top public schools. In New York City, where blacks and Hispanics make up 70% of the city’s school-aged population, they represent less than 5% at the city’s most elite public high schools. Meanwhile, Asian Americans make up as much as 73%. “Tested” follows a dozen racially and socioeconomically diverse 8th graders as they fight for a seat at one of these schools. Their only way in: to ace a single standardized test. The documentary includes the voices of such education experts as Pedro Noguera and Diane Ravitch as it explores such issues as access to a high-quality public education, affirmative action, and the model-minority myth. Immediately following the film screening, a group of education research discussants and the “Tested” director, Curtis Chin will discuss elements of the film and will respond to questions from the audience. For more info and documentary trailer, go to: www.testedfilm.com.

FR3.40.11 - Film Showing--Changing Face of Harlem
Indigo Ballroom B

Moderator: Shawn Batey (Film Director)
Changing Face of Harlem, 60 min. documentary

Told through the personal accounts of residents, business owners, politicians and real estate developers, CHANGING FACE OF HARLEM explores the drastic transformation of this historic neighborhood over a ten year span. The film tackles the pressing issues of class and cultural preservation as the neighborhood struggles to change for the better. Recognized internationally as "The Black Mecca," the neighborhood of Harlem was overlooked for decades. Longtime residents weathered the storm despite the abundance of negligent landlords and the lack of basic city services. Bank practices of redlining in the 1980s prevented many residents from purchasing historic brownstones within their own blocks. Recently, however, Harlem has developed into a prosperous neighborhood for commercial and corporate interests that now consider buying property in the area an ideal investment. With this influx of real estate developments, a younger and more affluent group of new residents has move in dramatically growing and changing the population of Harlem. Harlem residents have a mixed range of opinions about the future of their community. Some are fearful of what lies ahead and look towards the past for the best of its years. Others foresee a brighter future and happier days for a better Harlem. The consensus in the community is a concern and necessity for cultural preservation. As urban communities of color across the nation face similar struggles, CHANGING FACE OF HARLEM addresses the timely issues of urban renewal, gentrification, and how a community deals with the challenge of maintaining identity while accepting change.

3:40pm – 5:05pm P FR3.40.09 - Welcoming Cities and Suburbs: Immigrant Integration and Community Building
Indigo 202A
Speaker(s): Jessica Doyle, Xi Huang, Paul N. McDaniel, Richard Smith
Moderator: Xi Huang

Immigrants in recent decades have increasingly bypassed traditional gateway cities such as New York and Los Angeles and instead made inroads into American cities that saw few immigrants before. Immigrants have also dispersed from inner-city ethnic neighborhoods toward suburban neighborhoods that have traditional housed mostly native-born Americans. With these new immigrant-receiving communities undergoing rapid changes in their demographic composition, questions about immigrant assimilation confront more and more policy makers and academics. This panel consists of four papers using different approaches and focusing at different scale to examine the ways in which local governments are dealing with their new residents.

Moderator: Maria Martinez-Cosio (University of Texas Arlington)

In STEM fields more than 90% of research is conducted through collaborative partnerships, networks and co-authorship. In the social sciences, this collaborative imperative is becoming more apparent as researchers partner with practitioners from both the non-profit and the for-profit world to respond to multifaceted social issues. Although the benefits of international research teams and networks of experts are clear, collaboration across international boundaries and those that also traverse disciplines and industry, create challenges and pitfalls. Once funding agencies enter into the mix, the relationships between researchers, practitioners, the core organizing team and those on the fringe become more contested. Multi-institutional collaborations can bring together stronger, more intellectually robust teams of researchers but also can create challenges around building effective communication networks that can transcend language and culture. We are engaged in first of its kind collaborative project that engages researchers from Canada, the U.S.
and Europe, as well as nonprofit practitioners and funders under the umbrella of multi-year Canadian government grant to compare the role of Canadian foundations to those in the U.S., the UK, France, New Zealand, Italy, and Sweden. The questions we seek to answer include: • How can we develop a structure for collaboration that responds to language and cultural differences? • What are the frameworks needed to develop a common understanding of the research process and outcomes? • Furthermore, how does the team evaluate its collaborative relationships as they impact the project’s research agenda?

Domingo Morel, Wellesley College

The Road Less Travelled: A European Reassessment of the Roots of Regime Theory
Nicolas Van Puymbroeck, University of Antwerp

9:00am – 10:25am  P  SA9.00.22 - The Changing Logics of Public Education: Value, Risk, and Potential
Aqua 305

Speaker(s): Ariel H. Bierbaum, LeConté J. Dill, Ryan M. Good
Moderator: Ryan M. Good

Over the past two decades, public education has joined other urban policy in a turn towards market-based interventions, such as charter schools, vouchers, and portfolio management strategies. This reliance on markets for the provision of public services has shifted the nature of the governance and finance of public education nationwide. Public schools have normatively and historically been rooted in social, physical, and political space, yielding differential opportunities that result in persistent inequities. New configurations of governance have disrupted these roots, however, and arguably reconstituted public education in fundamental ways, the implications of which we struggle to fully grasp. In this context, diverse constituencies – from students and parents, to communities, charter operators, district management, private investors, and state policymakers – construct, measure, and leverage the value represented in and through schools in novel and at times incongruous ways. As capital investments, bricks-and-mortar buildings, independently managed organizations, neighborhood institutions, and sites of instruction, schools represent different dimensions of value, risk, and potential for stakeholders across a wide breadth of scales and actors. The papers in this panel traverse this breadth through explorations of the constructions of school value and the implications of their enactment.

“No One Asked How School Was Going”: Public Schools as Sites of Risk and Potential for Urban Girls of Color
LeConté J. Dill, State University of New York (SUNY) Downstate; Shavaun Sutton, State University of New York (SUNY) Downstate; Bianca Rivera, State University of New York (SUNY) Downstate

Understanding The Multidimensional Values of Neighborhood Schools Through Closure, Sales, and Reuse Processes
Ariel H. Bierbaum, University of California, Berkeley
Market (In)discipline and Competitive Charter School Growth in the Case of UNO in Chicago
Ryan M. Good, Rutgers University; Benjamin F. Teresa, The Graduate Center of the City University of New York

10:30am – 11:55am  P  SA10.30.01 - Resilient and Livable Cities in the Face of Natural and Man-Made Hazards in Asia
Indigo 202A

Speaker(s): Chin Siong HO, Deden Rukmana, Roberta Ryan, Husnul Fitri Sundoko
Sponsor(s): Georgia State University – Andrew Young School of Policy Studies, and the Lincoln Institute of Land Policy/Peking University-Lincoln Institute Center for Urban Development and Land Policy
Moderator: Deden Rukmana

Implementation and Monitoring Low Carbon and Resilient Urban Development in Malaysia
Chin Siong Ho, University of Technology Malaysia

Rapid Urbanization and Annual Flooding in Jakarta
Deden Rukmana, Savannah State University

Livable Sydney: Livable for Whom?
Roberta Ryan, University of Technology Sydney

Security Perception of Anti-Terrorism Strategies in Public Space: The Case of Jakarta
Husnul Fitri Sundoko, Institut Teknologi Bandung; Roos Akbar, Institut Teknologi Bandung; Teti Armiati Argo, Institut Teknologi Bandung; Denny Zulkaidi, Institut Teknologi Bandung

10:30am – 11:55am  P  SA10.30.02 - New Definitions & Indicators of Gentrification
Aqua Salon D

Speaker(s): Judith R Halasz, Xin Tong, Thomas Waters
Moderator: Judith R Halasz

The Super-Gentrification of Park Slope, Brooklyn
Judith R Halasz, State University of New York at New Paltz

Beyond Dichotomy: Identifying and Exploring Diverse Pathways of Inner-City Neighborhood Change in the 2000s
Xin Tong, Univ. of California, Irvine; Jae Hong Kim, Univ. of California, Irvine

Trajectories of Neighborhood Change in New York City, 1993-2011
Thomas Waters, The Graduate Center, City University of New York
**Saturday, March 18**

**Morning Events**

10:30am – 11:55am  
**SA10.30.03 - Building Community and Human Resiliency: The Role of Place-Based Organizations**  
Indigo 204A

Speaker(s): Lea Caragata, Jennifer Fuqua, Joe Galaskiewicz, Meghan Joy  
Moderator: Lea Caragata

Unpacking Resiliency: Low-Income Single Mothers and Grassroots NGO’s in Toronto, Canada  
Lea Caragata, Wilfrid Laurier University

**Building an Urban Youth Development System: Growing Pains and Alliances**  
Jennifer Fuqua, University of Delaware

The Spatial Distribution of Youth-serving Organizations in the Phoenix Urbanized Area, A Longitudinal Study, 2003-2013  
Joseph Galaskiewicz, University of Arizona; Kathryn Freeman Anderson, University of Arizona; Kendra Thompson-Dyck, University of Arizona

Realizing the Right to the City Through Age Friendly City Programs: The Case of Toronto  
Meghan Joy, Ryerson University

---

10:30am – 11:55am  
**SA10.30.04 - Planning for Neighborhood Impact**  
Indigo 204B

Speaker(s): Steven Bossi, Hee-Jung Jun, Youngsoo You, Eva Zhang  
Moderator: Hee-Jung Jun

Deciding Planning and Public Policy Issues Through the Use of Direct Democracy: Reflections From San Diego  
Steven Bossi, City of San Diego; Roger Caves, San Diego State University

The Link Between Local Comprehensive Plans and Housing Affordability  
Hee-Jung Jun, Sungkyunkwan University

Redevelopment and Its Implications in Low-rise Residential Districts in Seoul  
Youngsoo You, Seoul National University; Sea Eun Cho, Seoul National University; Saehoon Kim, Seoul National University

---

10:30am – 11:55am  
**SA10.30.05 - The Impact of Local Laws on Residents and Their Access to Housing**  
Indigo 206

Speaker(s): Ann Carpenter, Ryan Thomas Devlin, Philip Garboden, Daniel Pasciuti  
Moderator: Daniel Pasciuti

Sun Belt Approaches to Blight Remediation: Case Studies of New Orleans and Macon  
Ann Carpenter, Federal Reserve Bank of Atlanta; Emily Mitchell, Federal Reserve Bank of Atlanta; Shelley Price, Federal Reserve Bank of Atlanta
Behind Closed Doors: Illegal Apartments and the Hidden Landscape of Informal Housing in New York City

Housing, Legal Rights, and the Role of the Courts: A Study of Baltimore’s Rent Court
Daniel Pasciuti, Johns Hopkins University

The Privatization of Conflict: How Public Policy Shapes Landlord-Tenant Interactions
Eva Rosen, Johns Hopkins University; Philip Garboden, Johns Hopkins University; Stefanie DeLuca, Johns Hopkins University

10:30am – 11:55am P  SA10.30.08 - Entrepreneurial Ecosystems: Understanding their Structure and Role in Development
Aqua Salon C

Speaker(s): Elsie Harper-Anderson, Hyejin Jung, Lester King, Steve Marotta, Haifeng Qian
Moderator: Haifeng Qian

Bridging the Ecosystem Divide: Marginalization Across Space, Race and Industry in Regional Entrepreneurial Ecosystems
Elsie Harper-Anderson, Virginia Commonwealth University; Xi Zhange, Virginia Commonwealth University

Agglomeration Impacts on Entrepreneurial Ecosystems
Lester King, Rice University

Urban Maker-Entrepreneurial Ecosystems: The Case of Portland, Oregon
Steve Marotta, Portland State University; Greg Schrock, Portland State University; Charles Heying, Portland State University

Anchor University and College-Town Entrepreneurial Ecosystems
Haifeng Qian, University of Iowa; Xin Yao, University of Colorado-Boulder

The Impact of Income Inequality on Entrepreneurship and Economic Growth
Hyejin Jung, Cleveland State University

10:30am – 11:55am P  SA10.30.09 Diversity and Capacity Building
Aqua 314

Speaker(s): Anna Livia Brand, Courtney Knapp, Jason Plummer
Moderator: Jason Plummer

Claiborne on the Verge: Redevelopment in Historic Black Neighborhoods in the 21st Century
Anna Livia Brand, University of New Orleans

Enabling Local Democratic Opportunities Through Increased Collaboration Between Planners and Public Librarians
Courtney Knapp, California State Polytechnic University, Pomona
Saturday, March 18
Morning Events

**Why Some Cities March and Others Burn? Applying the Lessons of the Kerner Commission to Modern Civil Unrest**
Jason Plummer, California State University, Los Angeles; Louise Simmons, University of Connecticut

10:30am – 11:55am  P  SA10.30.10 - Schooling in the Neoliberal City: Detroit, Boston, and Baltimore
Aqua 305

Speaker(s): Leanne Kang, Mirna Lascano, Jessica Shiller
Moderator: Edith Barrett

**Building Civic Capacity and Instructional Regimes in the Aftermath of Disruptive Schooling in Detroit**
Leanne Kang, Grand Valley State University

**From Exclusion to Acceptance: Changing Nature of Bilingual Education in Boston**
Mirna Lascano, Romulo Gallegos Institute; Gordana Rabrenovic, Northeastern University

**Closing City Schools: A Policy with Negative Consequences for the Education of Urban Youth**
Jessica Shiller, Towson University

10:30am – 11:55am  P  SA10.30.12 - Environmental Alternatives and Mobility in Cities and Regions
Aqua 307

Speaker(s): Osuji Sabina Chiaka, Hyesun Jeong, Gabriel Diaz Montemayor
Moderator: Julia Nevarez

**The Place of Green Infrastructure in Imo State, Nigeria**
Sabina Chiaka Osuji, Imo State University; Marvelous Obinna Uzowuihe, Town Planning Authority Okigwe

**Hybrid Ecological and Sustainable Mobility Networks for Northern Mexico**
Gabriel Diaz Montemayor, The University of Texas at Austin

**Comparative Study: The Impact of Socio-Urban and Cultural Context on Walking, Bicycling, and Transit Use in Chicago, Seoul, and Paris**
Hyesun Jeong, Illinois Institute of Technology

Aqua 309

Speaker(s): Kwangyul Choi, Nahal Hakim, Seth Payton
Moderator: Nicole Ruggiano

**The Effects of Built Environment on Driving Emissions: A Comparative Analysis of U.S. Metropolitan Areas**
Kwangyul Choi, University of Texas at Austin
Relationship Between Jobs-Housing Ratio and Residents' Work Trip Vehicle Mile Travel
Nahal Hakim, University of Florida; Yingfei Huang, University of Florida

Revealed Preferences of Residents Living Near Multi-Use Trails: Do Use Levels Matter?
Seth Payton, Indiana University Purdue University Indianapolis; Greg H. Lindsey, University of Minnesota

10:30am – 11:55am  P  SA10.30.15 - Challenges for City and Neighborhood Development and Improvement
Aqua 311A

Speaker(s): Gidon S. Jakar, Richard Jelier, Benjamin Leamon, Ming-Chun Lee
Moderator: Ming-Chun Lee

Urban Regime and Sport Facility Development: Municipal Capital and Shutting out the Private Sector
Gidon S. Jakar, University of Michigan; Gillad Rosen, Hebrew University of Jerusalem; Eran Razin, Hebrew University of Jerusalem

From Blue-Printing to Finger-Printing: Approaching Neighborhood Development Through Scenario Planning
Ming-Chun Lee, University of North Carolina at Charlotte

Big City Politics Revisited: Exploring the Role of the Third Sector in Urban Development
Benjamin Leamon, The University of Louisville

An Analysis of Economic Development Policy in Michigan and Impact on Local Government: The Case of Detroit
Richard Jelier, Grand Valley State University

10:30am – 11:55am  P  SA10.30.18 - Financial Failure in Our Days, What's Next?
Aqua Salon E

Speaker(s): B. Shine Cho, Yunji Kim, Lyke Thompson
Moderator: Lyke Thompson

Civic Hacking for Budgeting and Financial Management: US and Korea
B. Shine Cho, U.Nebraska-Omaha; Nari Yoo, Yonsei Univ.; T. J. Lah, Yonsei Univ.

Drivers of Fiscal Stress and Local Government Responses in Upstate New York
Yunji Kim, Cornell University

From Bankruptcy, Regionalism: How Detroit's Fiscal Failure is Driving Regionalism in Southeastern Michigan
Lyke Thompson, Robert Mahu, Courtney Flynn, all of Wayne State University
Saturday, March 18
Morning Events

Aqua Salon F

Speaker(s): Siddig Fageir, Katie Galvin, Colby King
Moderator: Colby King

**Race, Residency, and Employment: GIS and Statistical Analysis of Metropolitan Mississippi Labor Markets**
Siddig Fageir, Jackson State University

Katie Galvin, California State-Stanislaus; Heidi L. Brocious, U. Alaska-Fairbanks

**A Different Perspective on Post-Industrial Labor Market Restructuring in Detroit and Pittsburgh**
Colby King, Bridgewater State U.; Laura Crommelin, Univ. of New South Wales

10:30am – 11:55am  P  **SA10.30.21 - Environmental Justice**

Aqua 313

Speaker(s): Heather E Campbell, Dohyung Kim, Tony Reames
Moderator: Yushim Kim

**Cleaning Up Brownfields, Improving Environmental Justice: Why Are Some Minority Communities Successful While Others Are Not?**
Heather E Campbell, Claremont Graduate University; Adam Eckerd, University of Tennessee, Knoxville; Yushim Kim, Arizona State University

**‘I Can’t Breathe’: Race, Place, Class, and Disparities in Metropolitan Air Quality**
Tony Reames, University of Michigan

**The Inequality of Built Environment from the Perspective of Environmental Justice**
Dohyung Kim, California State Poly Univ.-Pomona; Simon Choi, Southern California Association of Governments

12:00pm – 1:00pm  M  **Lunch (on your own)**
