A Special Welcome from the 2018 Local Host Committee

On behalf of the Local Host Committee for this year's Urban Affairs Association Annual Conference, we wish you a warm welcome to Toronto. Our committee includes faculty members from three Toronto-area universities - Ryerson University, the University of Toronto and York University. We represent a diverse range of urban scholarship in the fields of Environmental Studies, Geography, Political Science, Urban Planning and Urban Studies. Together, we have enjoyed the opportunity to create a connected series of events and field trips that showcase the city's strengths, address challenges we face as a region, and consider how we collectively contribute to creating solutions. This includes the Opening Plenary discussion entitled **Justice and Sustainability Within and Beyond the City's Edge**, to be held on April 5th at 8am and featuring three compelling panelists who will speak to some of the most complex challenges we currently face. We hope that you enjoy the conference and at the same time, enjoy Toronto!

Mission

The Urban Affairs Association is dedicated to creating interdisciplinary spaces for engaging in intellectual and practical discussions about urban life. Through theoretical, empirical, and action-oriented research, the UAA fosters diverse activities to understand and shape a more just and equitable urban world. (Adopted March 12, 2010)

History

UAA is the successor organization to the Council of University Institutes for Urban Affairs, formed in Boston in 1969 by a group of directors of university urban programs. As urban affairs developed as a professional and academic field, the need for an organization that welcomed urban faculty, professionals, and students as well as urban program directors and deans became increasingly apparent. In recognition of this need, in 1981 the organization's name was changed to the Urban Affairs Association. Today, UAA includes over 600 institutional, individual, and student members from colleges and universities throughout North America, South America, Europe, Africa, Australia and Asia. Among its other activities, UAA sponsors the *Journal of Urban Affairs*, a refereed annual journal, publishing manuscripts related to urban research and policy analysis of interest to both scholars and practitioners. All UAA members receive the *Journal of Urban Affairs* as part of their membership fee. UAA also sponsors Upsilon Sigma ($\Upsilon\Sigma$)- The Urban Studies Honor Society. Upsilon Sigma is dedicated to recognizing and encouraging excellence in scholarship, leadership, and engagement in urban studies and related fields. The mission is to promote academic excellence and enrich the educational experience of undergraduate and graduate students pursuing degrees related to urban studies.

The Urban Affairs Association holds a conference each spring in an urban center. Recent conferences have taken place in San Francisco, San Antonio, Miami, San Diego, and Minneapolis. Future conferences will occur in Los Angeles (2019) and Washington, D.C. (2020). These yearly conferences are an integral part of UAA's efforts to increase knowledge about urban places and promote the development of research activities. They provide an excellent opportunity for members to exchange ideas, information, and experiences. The conference program features both topics of institutional concern and those related to urban issues. Along with formal papers presented, and selected papers published, the conference format also allows opportunities for informal activities designed to foster professional networking and open discussion.

G. Thomas Kingsley (Age 81), Urban Institute
Submitted by Kathy Pettit, Urban Institute

G. Thomas (Tom) Kingsley, an influential practitioner and researcher in U.S. and international urban development, passed away on January 21, 2018. Tom devoted his entire career to improving urban neighborhoods and expanding opportunities for low-income residents.

In 1965, after receiving his master's in urban planning from University of California-Berkeley, he and his wife moved to India for his first international assignment to prepare a metropolitan development plan for Kolkata. Tom returned from India in 1969 to join Mayor Lindsay's administration in New York City where he directed the budget and personnel for the Housing and Development Administration. In the mid-1970s, he directed the RAND Corporation's housing and urban policy program and managed the Housing Assistance Supply Experiment, an

\$86 million federal experiment to test the market effects of housing vouchers. The program involved 23,000 households and laid the groundwork for the present-day federal housing voucher program.

Tom moved to Indonesia in the early 1980's to serve as the United Nations Chief Technical Advisor and develop the country's urban policy strategy. He returned to DC in 1986 and joined the Urban Institute, where he directed the Public Finance and Housing Center from 1986 to 1997 and helped launch and build Urban's Center on International Development and Governance.

At Urban, Tom applied his talents to improve policy in many parts of the world. As one example, he helped to establish the Czech Municipal Infrastructure Finance Fund, resulting in \$100 million loan from USAID. Tom also continued his research on domestic policy issues at Urban. He assisted former HUD Secretary Henry Cisneros in developing a series of essays on the future of American cities and co-directed the nationally recognized Ford Foundation Urban Opportunity Project. In 1996, he founded the National Neighborhood Indicators Partnership, now a thriving network of independent organizations in 32 cities that share a mission to help community stakeholders use neighborhood data for better decision-making, with a focus on assisting organizations in low-income communities. In the past decade, his research included patterns of concentrated poverty, impacts of the foreclosure crisis, and lessons from HUD's HOPE VI program for urban policy and public housing. He co-authored the book *Strengthening Communities with Neighborhood Data* documenting the community information field.

Tom mentored dozens of colleagues during his career, and he loved sharing his passion for urban policy with staff at all levels. His dry humor, good spirits, talent for turning challenges into opportunities, unfailing common sense, and uncommon decency all made Tom a wonderful person to work with and learn from. His memory will inspire many through their own careers, both at the Urban Institute and in institutions around the world.

Dr. Robert A. Young
1950-2017
University of Western Ontario
Submitted by Judith Garber, University of Alberta

The family announces with profound sadness that Dr. Robert A. Young passed away peacefully at the London Health Sciences Victoria Hospital on August 15, 2017, of complications from lymphoma. Predeceased by his parents, Gordon Alexander Young and Marion Katharine Young (Stevenson), Bob leaves his loving wife, Louise Gadbois, and their families.

Bob studied at McGill University, Institut d'Études Politiques (Paris), and Oxford University. In 1991, he joined the Political Science Department at the University of Western Ontario, later serving as Department Chair. In 2003-04,

Bob was President of the Canadian Political Science Association. He set in motion positive changes to the Canadian Journal of Political Science and the CPSA annual meeting.

At Western, Bob engaged in public debates related to his research and published widely. Among his books is *The Secession of Quebec and the Future of Canada*, a reflection of his career-long interest in Quebec, Catalanian, and Scottish secession politics. In a rare feat revealing the breadth of his intellect, Bob won journal article prizes from both the Canadian Economics Association and the Canadian Historical Association. His range of connections was unmatched – they spanned Canada's linguistic divide and reached deeply into the ranks of scholars in numerous countries.

From 2003-17, Bob was Canada Research Chair in Multilevel Governance. In this capacity, he attracted funding for the largest research project ever on the role of municipalities within Canadian federalism and in a comparative context. The series of publications from this international and interdisciplinary Major Collaborative Research Initiative (MCRI) helped rejuvenate the study of Canadian local government, politics, and policy, and it attracted many new scholars to the field. At the time of his death, Bob was an advisory board member for York University's MCRI on Global Suburbanisms.

Throughout his professional career, Bob had a profound influence on his many undergraduate and graduate students. He was selfless in the time and attention spent with them.

Bob Young is remembered widely for his formidable mind, dedication to scholarship, unbounded collegiality, generosity of spirit, and joie de vivre.

Opening Plenary

Thursday, April 5 – 8:00am to 9:00am
Grand East—Lower Concourse

Justice and Sustainability Within and Beyond the City's Edge

Toronto has become an international model of alternative approaches to urban policies, particularly in the areas of housing, immigration/diversity, social equity, and environmental sustainability. But significant tensions underlie this impressive image. Rising socio-spatial inequality, escalating housing costs, racialized patterns of growth, and inadequate transportation infrastructure, all threaten the metropolitan region's future prospects. However, collaborations in planning and policy at the local and regional levels have created opportunities for community engagement, grassroots place-making and larger scale city-building. The speakers in this plenary explore the challenges of life in this dynamic urban environment and reveal the roles that citizens and policy can play in defining Toronto now, and for the future.

Sabina Ali

Thorncliffe Park Women's Committee, Chair

Sabina Ali is the Chair and one of the founding members of Thorncliffe Park Women's Committee – created by residents to advance a transformative vision for Thorncliffe Park and the surrounding community. Under Ali's leadership, the Women's Committee revitalized the local park and created a healthy, engaged and inclusive community.

Sabina has worked to build the capacity and economic opportunities of residents and manages a wide variety of food, art, fitness, markets and garden programs.

She is currently involved in the community food project called Park Café, a place-based model of local eco-

nomic development by leveraging neighbourhood assets such as the park, existing bazaar, and local talent to improve livelihoods of low-income residents.

Sabina is the recipient of the Elizabeth Coke award for excellence in leadership in 2011, the 2014 Jane Jacobs Prize for her work in transforming the city through innovative thinking, dedication to community development, and passion for hard work, and the 2014 Phenomenal Woman Award. In the same year she was selected as one of the Top Ten Torontonians to get the things done by Globe and Mail. In 2017 she received an award for excellence in Civic Action and the MP's Sesquicentennial Citizenship Award. She sits at various committees such as Neighbour's Night Out Committee, Don Valley Citizenship Ceremony Committee and Jury committee for Ombudsman Awards. She is an active member of Toronto Food Policy Council.

Crystal Basi

Toronto Aboriginal Support Services Council, Executive Director

Crystal Basi is a mixed heritage person of Scandinavian, French Canadian, Haudenosaunee, and Scottish decent. She works in the community to honour the memory of her granny who endured (and resisted) systemic inequality that impacted her ability to live as an Indigenous person.

Crystal is the Executive Director of the Toronto Aboriginal Support Services Council (TASSC) and has been with the organization since 2011. Through TASSC, Crystal works to support 17 local Indigenous support service agencies and associates in a collective effort to enhance the wellbeing of Indigenous communities within Toronto.

Crystal has a Master of Arts in Community Development & Adult Education, with a thesis focus on building stronger relationships between Indigenous communities and social science research. Crystal also has a Bachelor of Social Work, and a Bachelor of Arts in International Development. Most especially she is the very proud mama of Neelam and Kira.

Burkhard Mausberg

The Greenbelt Foundation, Former CEO

Burkhard Mausberg was the founding CEO of the Friends of the Greenbelt Foundation and the Greenbelt Fund for twelve years, making the Greenbelt the most popular and successful environmental initiative in its time. A leader in Ontario's environmental/food sector, Mausberg has worked for non-profit groups for three decades. Before joining the Greenbelt Foundation, he directed the programs of the Ivey Foundation.

Mausberg was also CEO of several environmental organizations, such as Environmental Defence and Great Lakes United, which he transformed into essential forces for change. Mausberg has served on NGO boards, on the Boards of Government agencies/commissions, and mentors young talent to become skillful leaders in their field. He writes extensively on vital issues in diverse settings, and in 2017 published the critically acclaimed book *Ontario's Greenbelt: Protecting and Cultivating a Great Ontario Treasure*.

Mausberg studied environmental science at the University of Waterloo and the University of Toronto, where he also taught for eight years. He lives in Toronto with his daughters.

Annual Awards Luncheon

In the Shadow of Ferguson

Website: <https://planning.unc.edu/2017/06/ferguson/>

Description of Film:

Our story is bookended with two Fergusons, starting with the Plessy v. Ferguson Supreme Court ruling in 1896 that deemed “separate but equal” constitutional, and ending with the recent events surrounding the shooting of Michael Brown by a police officer in Ferguson, Missouri. “In the Shadow of Ferguson” examines the processes that institutionalized racism and inequality, documenting over 100 years of housing and urban policy that have shaped social and spatial segregation in St. Louis city and county.

Natura Urbana - the Brachen of Berlin

Website: <https://www.naturaurbana.org/>

Description of Film:

This prize-winning documentary film tells the post-war history of Berlin through its plants. The changing spontaneous vegetation of Berlin serves as a parallel history to war-time destruction, geo-political division, and the newest phase of urban transformation. In addition to stunning urban landscapes, and unknown or rarely seen archive footage, the film also features interviews with leading cultural and scientific figures from the city. The encounters with urban nature are set to a compelling acoustic atmosphere, along with diverse electronic music from the city.

Last Ride Through Regent

Description of Film:

There is a negative impact that gentrification has on spaces in Regent Park. Narratives of Black bodies are explored to examine their experiences of gentrification in their community. Gentrification results in the displacement of community members, which deteriorates the bonds created to support the social issues observed in the community.

Planting Seeds: Milwaukee's Young Farmers

Website: <http://www.groundworkmke.org/>

Description of Film:

A struggling yet hopeful inner-city Milwaukee neighborhood seeks to bond the community and plant the seeds of entrepreneurialism in its youth through the use of an innovative urban gardening program. John Flaig's documentary chronicling this program, its young participants, and its architect, Nick DeMarsh (a UWM graduate student, Dept. of Urban Planning) is an entertaining, homespun delight.

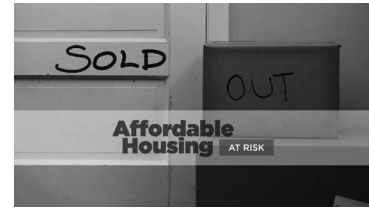

Sold Out: Affordable Housing at Risk

Website: <https://www.tpt.org/sold-out-affordable-housing-at-risk/>

Description of Film:

Affordable housing is under constant threat from changing economic forces and urban development that break up vital communities. Low-income residents have fewer and fewer options, and local businesses and schools must deal with the impact of losing those families. "Sold Out" examines the hidden costs to society when affordable rental housing is consumed by ravenous demand and high-end tastes.

The Hand That Feeds

Website: <http://thehandthatfeedsfilm.com/>

Description of Film:

At a popular bakery café, residents of New York's Upper East Side get bagels and coffee served with a smile 24 hours a day. But behind the scenes, undocumented immigrant workers face sub-legal wages, dangerous machinery, and abusive managers who will fire them for calling in sick. Mild-mannered sandwich maker Mahoma López has never been interested in politics, but in January 2012, he convinces a small group of his co-workers to fight back.

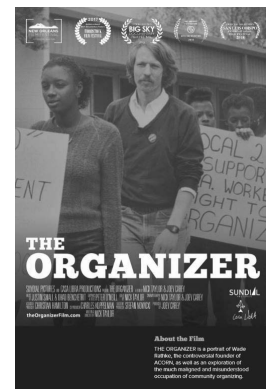

The Organizer

Website: <https://www.theorganizerfilm.com/>

Description of Film:

The Organizer is a portrait of Wade Rathke, the controversial founder of ACORN, as well as an exploration of the much maligned and misunderstood occupation of community organizing. Before it's infamous demise following several highly publicized scandals, ACORN had been the largest community organization in the US. Rathke, a former anti-war and welfare rights organizer founded the organization in Little Rock in 1970 and over the next decades shepherded its growth into a national political powerhouse for the poor. His entrepreneurial vision helped build ACORN but internal conflict and external pressures would lead to its tragic downfall. Undeterred, Rathke is now building new organizations around the world and trying to rebuild at home. With a wealth of archives and interviews, The Organizer is a film about people who have dedicated their lives to the often hidden, usually messy and always controversial job of building power for the powerless.

UAA Study Tours

Tour 1: Walking Tour of Three East End Neighborhoods: St. Jamestown, Cabbagetown, and Regent Park - SOLD OUT

Tour Leader: Alan Walks, University of Toronto

Date and Time: Saturday, April 7, 12:45pm-5:00pm

This walking tour will have participants exploring three notable neighbourhoods in Toronto's inner city, each abutting the others. Built in the late 1960s and early 1970s, St Jamestown is Canada's densest neighbourhood. It is just north of Cabbagetown, which is perhaps Toronto's, and even Canada's, most prominent example of the classic stage model of gentrification, and is said to house the greatest remaining cluster of 19th century Victoria houses in North America. Just south of this, Regent Park, finally, is both Toronto's and Canada's first social housing project, and the largest in the country. It is currently undergoing an extensive redevelopment by a private-sector consortium, including many new private market condominium buildings, that will see its population more than triple. The tour walks participants through each neighbourhood, allowing for comparisons of the very different trajectories experienced by these contiguous neighbourhoods.

Price: \$26 USD

For more tour details: <http://sched.co/D9zs>

Tour 2: Shaping and Reshaping Toronto's Waterfront - SOLD OUT

Tour Leaders: Gene Desfor, York University; and Jennefer Laidley

Date and Time: Saturday, April 7, 12:30pm-5:00pm

Toronto's waves of waterfront development have had an enormous impact not only on the landscape at the water's edge, but also on the growth of the entire city. Our van and walking tour, highlights the history of those waves of change in the central waterfront, from Bathurst Quay and the Island Airport on the west to the Port Lands and the Leslie Street Spit on the east. The tour focuses on the intertwined political, economic, and ecological forces that have shaped and reshaped the waterfront over the past 100 years.

Price: \$26 USD

For more tour details: <http://sched.co/DA07>

Tour 3: Downtown East Redevelopment – Planning, Unplanning, and the Regeneration of the East Downtown

Tour Leader: Zack Taylor, University of Western Ontario

Date and Time: Saturday, April 7, 12:45pm-5:00pm

Downtown east redevelopment tour that begins at Union Station and heads through St.

Lawrence, King East, Corktown, and culminates at the Pan Am Games/Canary District site. Drinks to follow at the Distillery District. The tour unpacks Toronto early industrial history and layers on eras of more recent redevelopment. Once the site of the 19th-century colonial assembly, the eastern flank of the central business district was for most of the 20th century a mix of industry and worker housing and had by the 1960s become dominated by brownfields and parking lots. Over the past five decades the area has been incrementally redeveloped, sometimes as a result of planning, sometimes in spite of planning, and sometimes as a result of “unplanning” — the relaxation of land-use regulation. These areas exemplify the complex interplay of public- and private-sector-led regeneration in the context of inner-city deindustrialization. As such they embody the ambivalent nature of the Toronto’s post-1970 success story: an urban core that (unlike many North American cities) is densely populated and commercially and culturally vibrant, yet whose social mix is challenged by rapid social and economic change.

Note: The total walking distance will be approximately 1.5 miles (2 km). Participants are encouraged to bring comfortable clothing, walking shoes, scarfs, and gloves as necessary. There is a streetcar stop near the tour’s endpoint.

Price: \$26 USD

For more tour details: <http://sched.co/DA0D>

Tour 4: Toronto’s Western Suburbs: Looking at the Region from the Outside In

Tour Leader: Roger Keil, York University; Michael Collens, Ministry of Municipal Affairs

Date and Time: Saturday, April 7, 12:45pm-5:00pm

This mobile tour will take participants through the western suburbs of the Toronto region. It will showcase three themes: the emergence and evolution of classical suburbia; incipient suburban retrofitting, densification and new centers as well as innovative infrastructure projects; and it will highlight the majority immigrant – ethnoburban -- residential and commercial neighborhoods in the periphery of Canada’s largest city. The purpose of the tour is to show that much of the tremendous growth of the Toronto region is happening in its ever-changing suburban periphery. This growth is strongly regulated by planning controls (intended densification of urban “places to grow”) and conservation policies (the greenbelt). These dynamics have changed the relationships of the suburbs to the central city, to the region and to each other.

Price: \$26 USD

For more tour details: <http://sched.co/DA0S>

Tour 6: One King - SOLD OUT

Tour Leader: Paul Bedford, City of Toronto

Date and Time: Wednesday, April 4, 12:45pm-5:00pm

On this walk we will, in part, explore one of Jacobs’ precepts in *Death and Life of Great American Cities* – that “new ideas must use old buildings”. Inside the historic buildings of this neighbourhood (and others like it) – the new ideas, that will fuel our

city's economy long into the future, are percolating. These types of spaces ("a good lot of plain, ordinary, low-value old buildings, including some rundown old buildings")* are essential and precious to any vibrant urban economy. This walk will commence at the Roastery – the café at the entrance to 401 Richmond. 401 was definitely inspired by Jane's thinking. We will do a quick tour of parts of the building (taking in the 10 foot square portrait of her created by artists John Scott and Deborah Waddington and roof garden – which Jane loved and wrote about in the New York Times magazine). We will then proceed through the streets of King Spadina and discuss the history of the zoning changes that occurred in '97 and the impact it had on the area, the buildings and people.

Price: \$26 USD

For more tour details: <http://sched.co/DA0V>

Tour 7: Walking Tour: Toronto's Resilience to Extreme Weather

Tour Leader: David MacLeod, City of Toronto Environment and Energy Division

Date and Time: Wednesday, April 4, 12:45pm-3:00pm

This tour will start inside the foyer of City Hall, taking a look at some of the architecture of this iconic building. The group will then take a stroll on the green roof of City Hall, where we will consider design and maintenance issues with green roofs. There will be a discussion of different types of green infrastructure as a way to buffer against extreme weather. From the City Hall podium roof vantage point, there will be a discussion of built infrastructure within view that contributes to and detracts from the city's resilience to extreme weather. We will discuss the implications of extreme weather on issues such as backup power in high rise buildings. From our vantage points around City Hall, we will discuss district energy, failing building envelopes and flooding basements. There will be time to consider advanced approaches such as infrastructure interdependency risk assessment and the use of Geographical Information Systems to inform climate risk decision making. There will be consideration of insurance sector implications of extreme weather and new financial disclosure guidelines on climate risk. The concept of resilience hubs for business and residential areas will be considered. Weaved throughout the discussion will be a description of the City's leading edge engagement with different infrastructure groups and the concept of interdependencies and cascade failure avoidance.

Price: \$10 USD

General Information

Welcome! If this is your first UAA conference, do not worry. We are a pretty friendly organization!

Important Information Regarding Name Badges and Tickets

Comprehensive Registration Badges

If you paid for a Comprehensive Registration, your badge has a cityscape symbol on the backside. This type of badge is worth an average of \$400 USD. Think about this whenever you take it off! Your badge gives you entry to all conference sessions, coffee breaks, breakfast and lunch meals, the opening reception, and the Thursday and Friday Networking Receptions.

To enter each meal or reception, simply turn your badge over so that the backside is visible to the door greeters. You must wear your badge to enter all meal/reception events during the conference. If you lose your badge, you will not have access to meals and receptions, and will need to purchase tickets to enter such events. This policy is strictly enforced!

Basic Registration Badge

If you paid for a Basic Registration, your badge will look the same as any other. The only difference is that the backside of your badge is blank except for the UAA WiFi code. Your badge gives you admission to all conference sessions (opening plenary and concurrent sessions), provides access to coffee breaks, but does not include entry to: breakfast, breakfast roundtables, meals, opening dinner reception, and networking receptions. Tickets for any UAA meal (breakfast, lunch) or reception event (Opening Reception, Thursday/Friday Networking Receptions) can be purchased via credit card at the On-Site Registration desk.

Please do not attempt to enter a meal or reception event without a purchased ticket or Comprehensive Registration badge. The entry points to all events are monitored.

We understand that your budget may not permit you to purchase a Comprehensive Registration or tickets, that is why UAA developed more affordable registration options. We ask that you respect UAA's financial constraints as well. As a nonprofit organization, UAA has limited resources and must pay significant prices for every drink and meal that is consumed. Therefore, we cannot afford to allow individuals to consume drinks and meals without paying for them.

Presentation Guidelines and Session Room Equipment

Time Structure of Sessions. Panel sessions are 85 minutes long. Within each session, approximately 15-20 minutes will be reserved for open discussion. In sessions with five presenters, each presenter is allotted 10 minutes. In sessions with three or four presenters, each presenter is allotted 12 minutes. It is best to plan on 10 minutes regardless of the number of presenters since last minute changes in the panel could affect your allotted time.

Presenters are encouraged to arrive a few minutes prior to their session in order to test their presentation. Audio-visual technical assistants will be on call to provide any necessary support.

If you are presenting a paper, please bring at least 12 copies of your paper to your session for distribution.

Audio-visual Set-Up. Each conference session room is equipped with a laptop, screen and LCD projector. If you wish to use PowerPoint (not required) for your presentation, please save your file to

a portable USB flash drive. If you are building your slides on a Mac computer, please convert your file to Microsoft PowerPoint and save to your flash drive. We suggest that you prepare PowerPoint content in 4:3 format. To do this, click on “Design” on the top navigation bar in PowerPoint, then click “Select Slide Size” in the “Customize” group. Click “Standard” to select 4:3 formatting. Traditional overhead and slide projectors are not provided.

We ask all presenters to avoid using their own computers for ease and efficiency in transitions between presenters in sessions. Delays in connecting computers reduce the amount of time for presentations and discussions.

Internet

High speed internet access is available throughout the hotel lobby and meeting spaces via Wi-Fi and the Link@Sheraton computer stations. Free access is available in the meeting space by using the UAA WiFi code= **UAA2018**. Internet access for individual hotel rooms can be purchased with a 50% discount applied for UAA lodgers. Keep in mind that the prices stated are in Canadian dollars. The exchange rate as of March 18 is 1 Canadian Dollar=.076 USD; 0.62 EUR; 0.54 GBP; and 4.8 CNY.

Submit Your Paper for the 2018 Best Conference Paper Award

*Deadline: July 15, 2018

This award is presented to the author(s) of the paper judged to be the best paper presented at the Urban Affairs Association's (UAA) conference. The recipient(s) receives a total honorarium of \$1000, an award plaque and complimentary conference registration. The award is presented one year after the original conference presentation.

All conference papers submitted for review to the *Journal of Urban Affairs* (JUA) are eligible for the award. Papers are subjected to the normal JUA review process, and finalists are determined by composite review comments. The award winner is selected by an ad hoc committee designated by the chair of the Governing Board. The committee reports its decision to the Executive Director and the Chairperson of the Board. The Executive Director informs the award recipient of the outcome.

Papers that are accepted for publication through the review process will appear in a subsequent issue of the JUA.

To be considered for the Best Conference Paper Award, submit your paper to:

<http://mc.manuscriptcentral.com/juaf>

For general guidance on preparing your manuscript for submission to the JUA, please refer to: **<http://www.tandfonline.com/action/authorSubmission?journalCode=ujua20&page=instructions>**

Make sure to identify your paper as a conference paper and include the dates and location of the conference.

Sincerely,

Igor Vojnovic

Editor, *Journal of Urban Affairs*

THIS IS YOUR DEGREE

[OPEN YOUR MIND]

The world's complex environmental problems will be solved by leaders with the knowledge and skills to examine issues from multiple perspectives. Since 1968, York's Faculty of Environmental Studies has been at the forefront of this kind of learning, with three innovative degree programs (BES, MES, & PhD), and over 6000 alumni working in diverse roles such as conservation biologists and design strategists, urban planners and ecological economists. Justice and Sustainability Within and Beyond the City's Edge

Grand East (Lower Concourse--2 floors below lobby)
(Open to all registrants)

Toronto has become an international model of alternative approaches to urban policies, particularly in the areas of housing, immigration/diversity, social equity, and environmental sustainability. But significant tensions underlie this impressive image. Rising socio-spatial inequality, escalating housing costs, racialized patterns of growth, and inadequate transportation infrastructure, all threaten the metropolitan region's future prospects. However, collaborations in planning and policy at the local and regional levels have created opportunities for community engagement, grassroots place-making and larger scale city-building. The speakers in this plenary explore the challenges of life in this dynamic urban environment, and reveal the roles that citizens and policy can play in defining Toronto now, and for the future.

Moderator: Shauna Brail, University of Toronto

Speakers: Sabina Ali, Thorncliffe Park Women's Committee, Chair; Crystal Basi, Toronto Aboriginal Support Services Council, Executive Director; Burkhard Mausberg, The Greenbelt Foundation, Former CEO

FR9.40.22 The Journal of Urban Affairs at 40: Transitions, Transformations, and Milestones
 City Hall Room (2nd Floor)

The session will focus on the last 40 years of the *Journal of Urban Affairs* (JUA), with four editors discussing the JUA's historical development, transitions, transformations, and milestones. The speakers will discuss the challenges during their term as the JUA's editor, as well as the rewards in helping shape the field of urban studies. The evolution of topics and debates over the last four decades, the changes in methods and applications of knowledge, and

the JUA's growing interdisciplinary and multidisciplinary profile will all be explored. The transition in publishers and the move from publishing five to eight issues per year will also be discussed during this session.

Routledge/Taylor & Francis is pleased to celebrate the 40th anniversary issue of the *Journal of Urban Affairs*

Editor
Igor Vojnovic
Michigan State University
jua@msu.edu

Focusing on urban research and policy analysis, the *Journal of Urban Affairs* is among the most widely cited journals in the field.

Published for the **Urban Affairs Association**, the journal provides a multidisciplinary perspective on issues of relevance to both scholars and practitioners, including:

- Interdisciplinary analyses of metropolitan and community problems
- Cutting edge quantitative and qualitative methodologies
- Global and comparative urban research
- Empirical research that advances the understanding for urban society
- Assessments of policies, programs, and strategies for change in the urban milieu

Varied perspectives and depth of analysis have made the *Journal of Urban Affairs* one of the fastest growing journals in urban studies.

Announcing the New Urban Studies Honor Society

Upsilon Sigma

(Sponsored by the Urban Affairs Association)

Upsilon Sigma is an international, multidisciplinary honor society! The Society was established by the Urban Affairs Association (UAA) in 2018. Upsilon Sigma is dedicated to recognizing and encouraging excellence in scholarship, leadership, and engagement in urban studies and related fields. The mission is to promote academic excellence and enrich the educational experience of **undergraduate and graduate students** pursuing degrees related to urban studies.
