A Special Welcome from the 2019 Local Host Committee

On behalf of the Local Host Committee for the 49th Annual Urban Affairs Association Conference, we welcome participants to Los Angeles, the City of Angels, located in a region that is as diverse as it is beautiful and economically vibrant. Our committee includes faculty members from five universities in the Southern California region: California State University, Los Angeles; California State University, Long Beach; University of California, Irvine; University of California Los Angeles (the conference host campus); and University of Southern California. We represent a diverse range of urban scholarship in the fields of Environmental Studies, Geography, Political Science, Public Policy, Urban Planning and Urban Studies. Collectively, we have labored to create an engaging conference experience. We embraced the opportunity to create a series of events and local tours that showcase the city's strengths, address challenges we face as a region, and consider how we collectively contribute to creating solutions.

The Opening Plenary is set to kick off the conference with a focus on affordable housing and homelessness – a wicked problem many perceive as the most pressing local challenge of the last half century. The discussion, Rights to Decent Housing: Local Lessons on Housing Affordability, Supply and Homelessness, to be held on April 24th at 4:00pm, will feature three compelling personalities whose responses will include critical discussions about an extremely ambitious local response to homelessness implemented by Los Angelenos to date, a homelessness sales tax estimated to generate \$355 million annually to address homelessness. We hope that your cup runneth over from your LA experience, enjoy!

Mission

The Urban Affairs Association is dedicated to creating interdisciplinary spaces for engaging in intellectual and practical discussions about urban life. Through theoretical, empirical, and action-oriented research, the UAA fosters diverse activities to understand and shape a more just and equitable urban world. (Adopted March 12, 2010)

History

UAA is the successor organization to the Council of University Institutes for Urban Affairs, formed in Boston in 1969 by a group of directors of university urban programs. As urban affairs developed as a professional and academic field, the need for an organization that welcomed urban faculty, professionals, and students as well as urban program directors and deans became increasingly apparent. In recognition of this need, in 1981 the organization's name was changed to the Urban Affairs Association. Today, UAA includes over 600 institutional, individual, and student members from colleges and universities throughout North America, South America, Europe, Africa, Australia and Asia. Among its other activities, UAA sponsors the *Journal of Urban Affairs*, a refereed annual journal, publishing manuscripts related to urban research and policy analysis of interest to both scholars and practitioners. All UAA members receive the *Journal of Urban Affairs* as part of their membership fee. UAA also sponsors Upsilon Sigma - The Urban Studies Honor Society. Upsilon Sigma is dedicated to recognizing and encouraging excellence in scholarship, leadership, and engagement in urban studies and related fields. The mission is to promote academic excellence and enrich the educational experience of undergraduate and graduate students pursuing degrees related to urban studies.

The Urban Affairs Association hosts a conference each spring in an urban center. Recent conferences have taken place in San Antonio, Miami, San Diego, Minneapolis, and Toronto, Canada. Future conferences will occur in Washington, D.C. (2020) and Nashville, Tennessee (2021). These yearly conferences are an integral part of UAA's efforts to increase knowledge about urban places and promote the development of research activities. They provide an excellent opportunity for members to exchange ideas, information, and experiences. The conference program features both topics of institutional concern and those related to urban issues. Each year, formal research papers are presented, with selected papers published in the *Journal of Urban Affairs*. Additionally, the conference format allows opportunities for informal activities designed to foster professional networking and open discussion.

Rights to Decent Housing: Local Lessons on Housing Affordability, Supply and Homelessness

Nationally, over 550,000 people are homeless on a single night. Big cities with the least affordable rental housing markets such as New York, San Francisco and Los Angeles have the most severe homelessness incidence. In Los Angeles, the median rent price is \$3,500 and the homelessness count is approximately 55,000 people. There is wide agreement that homelessness must be addressed, and growing housing supply and support services are critical features to addressing the problem locally. Nevertheless, market forces seem to be making it more difficult to grow affordable housing supply and independent NIMBY sentiments still flourish limiting siting of affordable housing in particularly desirable locations in the metropolitan area. This panel will consider what current housing market trends suggest and provide a platform of debate on current housing policy programs and proposals being offered to remedy the problem. This will prove to be a lively debate about local housing policy in Los Angeles, which is likely applicable to housing policy debates around the country.

Moderator: Deirdre Pfeiffer, Arizona State University

Deirdre Pfeiffer is an Associate Professor in the School of Geographical Sciences and Urban Planning at Arizona State University and a member of the American Institute of Certified Planners. Dr. Pfeiffer is a housing planning scholar, with expertise on housing as a cause and effect of growing social inequality and the role of housing planning in meeting the needs of diverse social groups. Her recent research appears in *Journal of Planning Education and Research*, *Urban Affairs Review*, *Cityscape*, *Housing Studies*, and *Housing Policy Debate*. Dr. Pfeiffer currently is exploring the interconnections between housing and health, the housing experiences of Millennials and seniors, and the effects of single-family rentals on neighborhoods.

Dr. Pfeiffer maintains an active agenda of professional service, including serving as a Managing Editor for *Journal of Urban Affairs* and a conference track chair for the Association of Collegiate Schools of Planning. Dr. Pfeiffer also is deeply committed to community partnerships to help solve pressing housing issues in Arizona. Her recent collaborators include Vitalyst Health Foundation, the Arizona Partnership for Healthy Communities, the Arizona Housing Alliance's Mobile Housing Working Group, and the Southwest Fair Housing Council. Dr. Pfeiffer holds a MA and PhD in Urban Planning from UCLA.

Speaker: Marqueece Harris-Dawson, Los Angeles City Council

Councilmember Marqueece Harris-Dawson represents District 8 of Los Angeles. A longtime community organizer, he was formerly President and CEO of the progressive nonprofit, Community Coalition. He currently serves as the Chair of the City Council's Homelessness and Poverty Committee, where he was able to raise \$1.2 Billion dollars in his first 18 months of office.

Marqueece has been recognized with numerous community commendations, recognitions and awards including the coveted Do Something "BRICK" Award, The Wellness Foundation Sabbatical Award, the NAACP Man of Valor Award, Durfee Foundation's Stanton Fellowship and Liberty Hill Foundation's Upton Sinclair Award. He holds a certificate in non-profit management from Stanford's Graduate School of Business and is an Aspen Institute Pahlara Fellow.

Marqueece and his wife Karrie are proud homeowners in South Los Angeles. They strongly believe in the community's power to create a better tomorrow when we pull together and work hard.

Speaker: Robin Hughes, Abode Communities

Robin Hughes is president and chief executive officer of Abode Communities, a Los Angeles-based nonprofit architect, developer, manager and operator of service-enhanced affordable housing. She has been actively involved in affordable housing and community development for over 30 years and in her 20 years as leader of Abode Communities, Hughes has transformed the organization into a top 50 affordable housing developer nationwide and the premier provider of environmentally sustainable affordable housing in California.

Under Hughes' leadership, Abode Communities has developed more than 40 residential and mixed-use communities; created new affordable homes for over 8,000 California residents and provided a social safety net through Beyond Homes, the organization's substantive resident services program.

Hughes is an industry leader in housing policy at the local, state and federal level. She serves or has served on numerous boards, task forces and advisory bodies where she continues to advocate for resources, programs and policies to support the production and preservation of affordable housing for low-income residents.

Hughes was chair of the Affordable Housing Advisory Council for the Federal Home Loan Bank of San Francisco, a member of the JPMorgan Chase Community Advisory Board of Los Angeles, and has served on the board of directors for organizations such as Southern California Association of Nonprofit Housing, Low Income Investment Fund, Esperanza Community Housing Corporation and Mercy Housing California. Prior to joining Abode Communities, Hughes held positions in the private and public sectors including The Richmond Group of Companies, Citibank, the Community Development Commission of the County of Los Angeles, and the Office of the Mayor of the City of Los Angeles. Her experience is highlighted by four years as City Planning Commissioner for the City of Los Angeles.

Speaker: Jerry Nickelsburg, University of California, Los Angeles

Jerry Nickelsburg joined the UCLA's Anderson School of Management and The Anderson Forecast in 2006. Since 2017 he has been the Director of The Anderson Forecast. He teaches economics in the MBA program with a focus on business forecasting and on international business in Asia. As the Director of The Anderson Forecast he plays a key role in the economic modeling and forecasting of the National, California, and regional economies. He has conducted

research in the areas of labor economics, industrial organization, statistics, and international monetary economics, focusing on the development of new data and the application of economic theory and statistical methods to policy issues. His current academic research is on labor markets, and transportation economics. He is a regular presenter at Economic Conferences and is cited in the national media including the *Financial Times*, *Wall Street Journal*, *New York Times*, *Los Angeles Times*, and *Reuters*.

He received his Ph.D. in economics from the University of Minnesota in 1980 specializing in monetary economics and econometrics. He was formerly a professor of Economics at the University of Southern California and has held executive positions with McDonnell Douglas, FlightSafety International, and FlightSafety Boeing during a fifteen-year span in the aviation business. He also held a position with the Federal Reserve Board of Governors developing forecasting tools, and has advised banks, investors and financial institutions.

From 2000 to 2006, he was the Managing Principal of Deep Blue Economics, a consulting firm he founded. He has been the recipient of the Korda Fellowship, USC Outstanding Teacher, India Chamber of Commerce Jubilee Lecturer, and he is a Fulbright Scholar. He has published over 100 scholarly and popular articles on economic policy, monetary economics, statistics, labor economics, and industrial organization and he is the author of two books on monetary economics and exchange rates.

At the Kauffman Foundation,
we first listen to the communities we serve,
seek to understand the problems,
and dream big with people to build
uncommon solutions that deliver results.

So, whatever you're dreaming,
now is the time for Uncommon.

And we believe,
Uncommon is YOU.

The Area

Website: <https://theareafilm.com/>

Description of Film: The Area is the five-year odyssey of a South Side Chicago neighborhood, where more than 400 African-American families are being displaced by a multi-billion-dollar freight company. The film follows homeowner-turned-activist Deborah Payne, who vows to be “the last house standing,” and the RowRow Boys, teen friends who must start a new life across gang lines.

Complicit

Website: <http://www.complicitfilm.org/>

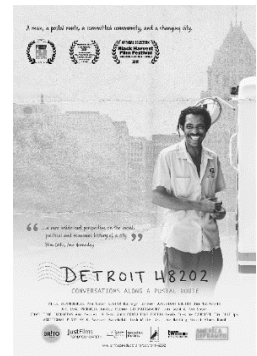

Description of Film: A courageous factory worker struggling with leukemia helps a group of young Chinese workers who have also been poisoned while making our favorite cell phones and electronic gadgets. The lushly photographed film takes the audience on an 8,000-mile journey to the world's electronics factory floors and the neighborhoods and hospitals surrounding the world's largest electronics supplier, Foxconn in Shenzhen and Guangzhou. Complicit reveals the human costs of global outsourcing while highlighting the choices made by a group of inspired activists seeking change.

Detroit 48202: Conversations Along a Postal Route

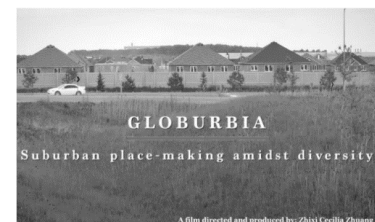

Website: <http://www.gritoproductions.com/detroit48202>

Description of Film: A veteran mailman provides an intimate glimpse of Detroiters' resistance to boom and bust capitalism and structural racism. Detroit 48202: Conversations Along a Postal Route examines the rise, demise, and contested resurgence of the City of Detroit through the lens of African-American mail carrier, Wendell Watkins, and the committed community he faithfully served for thirty years. The film asks: Will the resurgence of Detroit center on a high tech and increasingly white downtown, or will it focus on the vast stretches of neglected neighborhoods that continue to deal with a 40% poverty rate, water shutoffs, tax foreclosures, poor transportation, and a school system in crisis?

Globurbia: Suburban Place-making Amidst Diversity

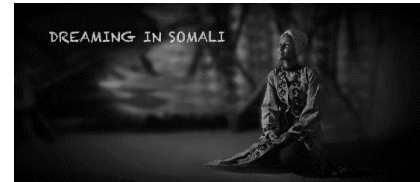

Description of Film: Toronto, with half of its population born outside of Canada and speaking more than 140 languages, is well known as one of the most multicultural cities in the world. Its ethno-cultural diversity is often manifested in urban landscapes with long-lasting imprints of ethnic-oriented facilities and institutions. With increasing suburbanization of immigrant populations, the stereotypically homogeneous suburban landscapes have been transformed by ethnic communities who bring new identities and new meanings to the space. This documentary explores the evolution of ethnic neighbourhoods in

Toronto's suburbs and how ethnic communities have played a role in suburban place-making and the challenges they face. It raises critical questions for municipalities in terms of how to engage diverse communities equitably and inclusively, how to enhance the advantages of urban diversity, and how to manage unprecedented social, cultural, economic, physical, and political changes that challenge conventional suburban planning.

Dreaming in Somali: New Americans in the Twin Cities

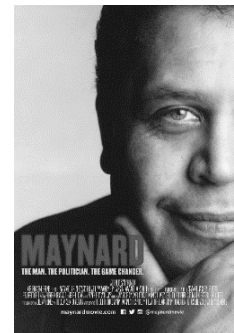

Description of Film: Dreaming in Somali follows the lives of four Somali Americans in the Twin Cities, widely regarded as the “Minnesota Miracle” for its successful integration of the largest Somali population in the country. By providing an intimate look at our subjects’ triumphs and challenges, the film brings to light the complex issues New Americans across the nation are facing where changing demographics often engender fear and foster misconceptions about refugees, immigrants and Muslims.

Maynard

Website: <https://maynardmovie.com/>

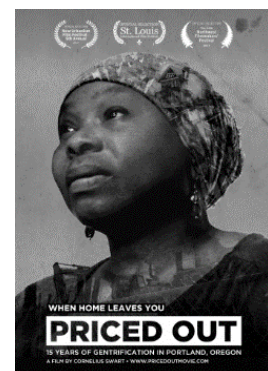

Description of Film: Academy Award Nominee, Director Sam Pollard constructs the story of Maynard Jackson Jr, the first African American Mayor of a major southern city, Atlanta. The Obama before Obama. In 1968 after the assassinations of MLK Jr. and Robert Kennedy, he announced his candidacy for the Georgia U.S. Senate against known segregationist, Herman Talmadge. His loss ultimately ignited a movement in the south that was started by Dr. King then picked up by Maynard. The “enforcer” of affirmative action and voter turnout, Maynard crafted successful diversity, inclusion & engagement templates still practiced today, and transformed the reputation of Atlanta from the “heart of the confederate south” to a cosmopolitan world-class city.

Priced Out: 15 Years of Gentrification in Portland, Ore

Website: <https://www.pricedoutmovie.com/>

Description of Film: Priced Out is an investigative and personal look at housing discrimination and the pain of losing a community to gentrification. The film explores the complexities and contradictions of gentrification and life after the era of “the ghetto.” The documentary powerfully illustrates how government policies and market forces combine to destroy and rebuild neighborhoods. Some embrace new investment at first, but few are left standing when new money moves in and old residents find themselves priced out.

UAA Study Tours

Tour 1: Community Change & Redevelopment in Historic Ethnic Enclaves: Chinatown and Little Tokyo

Tour Leader: Dr. Laureen Hom, Soka University

Date and Time: Saturday, April 27, 12:00pm – 5:30pm

This mobile study tour focuses on two historic downtown corridor communities, Chinatown and Little Tokyo, that were originally formed by and persist through the political engagement and needs of Asian Americans and immigrants, but also faced waves of changes and displacement. Participants will take part in a walking tour through both neighborhoods and will be introduced to key neighborhood sites to learn about the array of stakeholders in each community and their political mobilization beneficial changes to the community, and at times resist change in Chinatown and Little Tokyo in response to the threats of forced displacement. The sites will be historic, new, and in-process and include the residential, institutional, business, and cultural spaces in the neighborhoods. The tour will provide a history of the demographic changes and the implications of these changes for the development of the neighborhood and broader development issues in the city today. In addition, the tour will point out distinctions and commonalities across the two neighborhoods.

Ticket Price: \$40.00 USD

For More Tour Details: <https://sched.co/LcXr>

Tour 2: Walking Tour of Leimert Park: Preserving the Heartbeat of Black Los Angeles

Tour Leader: Roland Wiley, RAW International Inc.

Date and Time: Saturday, April 27, 12:00pm – 6:00pm

Leimert Park, one of the first planned communities in Southern California just 5 miles from downtown Los Angeles, was considered a model of urban planning. On this tour, participants will visit the following neighborhood landmarks: The Vision Theater, Leimert Park Plaza and Leimert Park Village. Participants will visit surrounding neighborhoods, Windsor Hills, Baldwin Hills, View Park, and Hyde Park. Afterward, participants will visit South Los Angeles transitional areas Park Mesa neighborhood, Exposition Park, and the planned location of Destination Crenshaw. In all, participants will see how the culture, history and community activism have come together to produce a strong resilient effort to preserve the very heart of the community in the mist of intense neighborhood change.

Ticket Price: \$40.00 USD

For More Tour Details: <https://sched.co/LcY4>

Tour 3: The Community-Port Interface: Challenges and Opportunities in Port Cities

Tour Leader: Dr. Thomas O'Brien, California State University- Long Beach

Date and Time: Saturday, April 27, 10:00am – 3:00pm

This mobile study tour focuses on how both Long Beach and Los Angeles have approached community and urban development as port cities. On our way to the Port of Long Beach, participants will get a windshield view of the landscape of logistics operations that support global trade. At the port, participants will observe operations at one of the world's greenest and most technologically advanced container terminals. From Long Beach, the tour moves to the neighboring Port of Los Angeles where participants will visit Ports O' Call Village and get an update from port personnel on the City's Waterfront Redevelopment plan, which was designed to ensure that commercial and community serving uses co-exist in harmony with the cranes and ships moving cargo. The visit includes a stop at AltaSea, a unique research center being developed on a 35-acre campus for the purposes of scientific collaboration, job creation and maritime sustainability.

Special Note: Due to restricted access areas along the tour, each participant must bring a valid government-issued ID with them on the tour in order to participate.

Ticket Price: \$40.00 USD

For More Tour Details: <https://sched.co/LcYI>

Tour 4: Walking Tour of Santa Monica: Little City, Big Challenges

Tour Leader: Bill Parent and Gabriela Solis, University of California, Los Angeles

Date and Time: Saturday, April 27, 12:00pm – 6:00pm

The City of Santa Monica is a small, dynamic city that is facing adaptive challenges in housing, economic development, environmental sustainability, affordability, and education. Homelessness, transportation, and safety issues are at the forefront of public concern. On this tour, participants will visit neighborhood landmarks starting with Reed Park and St. Monica's Church, and move on to the Third Street Promenade, The Santa Monica Pier and Ocean Front Walk, Tongva Park, and City Hall. Participants will ride the new light rail Expo Line across Santa Monica to Bergamot, an internationally renowned creative arts complex, boasting some 30 galleries and creative businesses. Along the way, participants will have the opportunity to meet and speak with residents, business owners, public officials, nonprofit directors, and activists about how well (or how poorly) Santa Monica is facing the adaptive challenges before it.

Special Note: This tour includes a trip across the Santa Monica light rail as well as an optional wine tasting at the San Antonio Winery. Each participant will be responsible for covering the \$1.75 fare for the light rail. If you would like to participate in the (optional) wine tasting, the cost is an additional \$10/person.

Ticket Price: \$40.00 USD

For More Tour Details: <https://sched.co/LcYw>

Tour 5: Living on the “EastSides”: Prominence of the Latino/a Influence in Los Angeles

Tour Leader: Dr. Raphael J. Sonenshein, Pat Brown Institute, California State University, Los Angeles; Raquel Beltran, Pat Brown Institute, California State University, Los Angeles; Dr. Bianca Guzman, GoEast LA, Dept of Chicano and Chicana Studies, California State University, Los Angeles

Date and Time: Saturday, April 27, 12:30pm – 5:30pm

While Los Angeles is known as a diverse metropolis, the largest group by far is the Latino/a community. The rise of a radical Chicano politics in the 1960s on LA’s east-side had a profound effect on the growth of Latino/a consciousness nation-wide and became a central part of LA’s progressive movements. With the geographic spread of Latinos, there are a number of “east-sides”. This tour focuses on three major nodes: Eastside Los Angeles, including the early settlement site in downtown LA; Boyle Heights, the unincorporated territory of East LA; and the smaller, incorporated cities within Southeast LA. At various stops we will meet guides who are familiar with community issues, including Mark Lopez. Some of the sites we will visit are: La Plaza de Cultura, Olvera Street, Breed Street Shul in Boyle Heights, Mariachi Square, LA River, and Headquarters of East Yard.

Ticket Price: \$40.00 USD

For More Tour Details: <https://sched.co/LcZB>

The poster features a blue background with a faint image of a classical building facade. The NLC logo is prominently displayed in the upper right, with the tagline 'CITIES STRONG TOGETHER' below it. The main title 'GRANT OPPORTUNITY' is centered in large white letters, followed by the subtitle 'HOW DO STATE PREEMPTION LAWS IMPACT LOCAL COMMUNITIES?'. To the right, contact information for Christiana McFarland is provided. The bottom section contains two paragraphs of text about the grant opportunity and the upcoming UAA 2020 event.

General Information

Welcome! If this is your first UAA conference, do not worry. We are a pretty friendly organization!

Important Information Regarding Name Badges and Tickets

Comprehensive Registration Badges

If you paid for a Comprehensive Registration, your badge has a symbol on the backside. This type of badge is worth an average of \$400 USD. Think about this whenever you take it off! Your badge gives you entry to all conference sessions, coffee breaks, breakfast and lunch meals, the opening reception, and the Thursday and Friday Networking Receptions.

To enter each meal or reception, simply turn your badge over so that the backside is visible to the door greeters. You must wear your badge to enter all meal/reception events during the conference. If you lose your badge, you will not have access to meals and receptions, and will need to purchase tickets to enter such events. This policy is strictly enforced!

Basic Registration Badge

If you paid for a Basic Registration, your badge will look the same as any other. The only difference is that the backside of your badge is blank. Your badge gives you admission to all conference sessions (opening plenary and concurrent sessions), provides access to coffee breaks, but does not include entry to: breakfast, breakfast roundtables, meals, opening dinner reception, and networking receptions. Tickets for any UAA meal (breakfast, lunch) or reception event (Opening Reception, Thursday/Friday Networking Receptions) can be purchased via credit card at the On-Site Registration desk.

Meals & Receptions Entry

We understand that your budget may not permit you to purchase a Comprehensive Registration or tickets, that is why UAA developed more affordable registration options. We ask that you respect UAA's financial constraints as well. As a nonprofit organization, UAA has limited resources and must pay significant prices for every drink and meal that is consumed. Therefore, we cannot afford to allow individuals to consume drinks and meals without paying for them.

Please do not attempt to enter a meal or reception event without a purchased ticket or Comprehensive Registration badge. The entry points to all events are monitored.

Presentation Guidelines and Session Room Equipment

Time Structure of Sessions. Panel sessions are 85 minutes long. Within each session, approximately 15-20 minutes will be reserved for open discussion. In sessions with five presenters, each presenter is allotted 10 minutes. In sessions with three or four presenters, each presenter is allocated 12 minutes. It is best to plan on 10 minutes regardless of the number of presenters since last minute changes in the panel could affect your allotted time.

Presenters are encouraged to arrive a few minutes prior to their session in order to test their presentation. Audio-visual technical assistants will be on call to provide any necessary support.

If you are presenting a paper, please bring at least 12 copies of your paper to your session for distribution.

Audio-visual Set-Up. Each conference session room is equipped with a laptop, screen and LCD projector. If you wish to use PowerPoint (not required) for your presentation, please save your file to a portable USB flash drive. If you are building your slides on a Mac computer, please convert your file to Microsoft PowerPoint and save to your flash drive.

We ask all presenters to avoid using their own computers for ease and efficiency in transitions between presenters in sessions. Delays in connecting computers reduce the amount of time for presentations and discussions.

Internet

High speed internet access is available throughout the Luskin Conference Center and Hotel lobby and meeting spaces via Wi-Fi. To join the newtwork, select: LCC_Meeting. Then enter passcode: LCC2019.

Submit Your Paper for the 2019 Best Conference Paper Award

*Deadline: July 15, 2019

This award is presented to the author(s) of the paper judged to be the best paper presented at the Urban Affairs Association's (UAA) conference. The recipient(s) receives a total honorarium of \$1000, an award plaque and complimentary conference registration. The award is presented one year after the original conference presentation.

All conference papers submitted for review to the *Journal of Urban Affairs* (JUA) are eligible for the award. Papers are subjected to the normal JUA review process, and finalists are determined by composite review comments. The award winner is selected by an ad hoc committee designated by the chair of the Governing Board. The committee reports its decision to the Executive Director and the Chairperson of the Board. The Executive Director informs the award recipient of the outcome.

Papers that are accepted for publication through the review process will appear in a subsequent issue of the JUA.

To be considered for the Best Conference Paper Award, submit your paper to:

<http://mc.manuscriptcentral.com/juaf>

For general guidance on preparing your manuscript for submission to the JUA, please refer to: **<http://www.tandfonline.com/action/authorSubmission?journalCode=ujua20&page=instructions>**

Make sure to identify your paper as a conference paper and include the dates and location of the conference.

Sincerely,

Igor Vojnovic

Editor, *Journal of Urban Affairs*

Journal of Urban Affairs

Recent Highlights

Editor
Igor Vojnovic
Michigan State University
jua@msu.edu

Focusing on urban research and policy analysis, the *Journal of Urban Affairs* is among the most widely cited journals in the field. Published for the Urban Affairs Association, the journal provides a multidisciplinary perspective on issues of relevance to both scholars and practitioners, including:

- Interdisciplinary analyses of metropolitan and community problems
- Cutting edge quantitative and qualitative methodologies
- Global and comparative urban research
- Empirical research that advances the understanding for urban society
- Assessments of policies, programs, and strategies for change in the urban milieu

Varied perspectives and depth of analysis have made the *Journal of Urban Affairs* one of the fastest growing journals in urban studies.

Journal of Urban Affairs accepts article submissions of up to 35 pages, inclusive of the abstract, tables, references, figure captions, footnotes, endnotes. The average journal article length is around 10,000 words.

Journal of Urban Affairs is proud to average 31 days turnaround from submission to decision.

Call for Participation

Shaping the Future of Urban Research

The Urban Affairs Association (UAA) emerged through the development of urban research and outreach centers at U.S.-based colleges and universities, in the 1960s. A small group of center directors began meeting to share experiences and developmental strategies. This group became known as the Council of University Institutes for Urban Affairs (CUIUA) and held their first meeting in Boston Massachusetts on November 13, 1969, where an official constitution and bylaws were drafted and approved. In April of 1970, the council convened the first annual meeting of the organization in Washington, D.C.. In 1981, the board of CUIUA changed the name of the organization to the Urban Affairs Association (UAA). Today, the future of UAA as an organization is inextricably linked to the commitment and engagement of researchers, policy analysts, policy advocates, academic programs, research centers, and public/nonprofit practitioners seeking to advance the well-being of residents, neighborhoods, cities, and their respective metropolitan regions across the globe.

In April of 2020, UAA returns to Washington, D.C. to celebrate its 50th anniversary of annual meetings. The Opening Plenary of the 2020 conference will address the theme, "The State of Urban Affairs and the State of Urban Affairs Research." This theme sets the stage for the overarching goals of the conference, which are: 1) to better understand our past, 2) to assess current realities, and 3) to create visions for the future that support a global urban research agenda. The conference will provide opportunities to assess urban affairs as a field, and to develop ideas for enhancing its long-term prospects and impacts. We encourage proposals for paper, panel, colloquy and roundtable sessions to stimulate thinking and re-thinking of urban affairs, and to widen intellectual and professional networks.

Deadlines

October 1, 2019, 11:59pm (CDT) - Abstract/Session Proposal Deadline

December 13, 2019, 11:59pm (CDT) - Registration Deadline

Persons who miss these deadlines are welcome to attend as observers

Participation Formats

A proposal can be submitted through the UAA website using ONE of the following participation formats:

- Individual research paper presentation: Proposal requires an abstract
- Organized research paper panel: Proposal requires a panel summary, group of 4-5 paper abstracts, and a designated moderator (who may be a paper presenters)
- Organized colloquy: Proposal requires theme statement & names of 4-5 discussants
- Breakfast roundtable: Proposal requires theme statement & names of 1-2 conveners
- Poster: Proposal requires an abstract. Best option for persons in early stage of research.

50th Anniversary Topics

The following topics are examples are offered to stimulate, not to limit, your development of ideas for possible proposals:

What is Urban Affairs?

- What does “urban” mean in scholarship and in public discussion, media, legislative debates, etc.? How have those meanings changed over time? How do these changes matter?
- How relevant are the traditional distinctions between urban, suburban, and rural communities to our understandings and analyses of development and its consequences?
- How has “urban” scholarship and policy discourse differed and converged globally?
- Is “urban affairs” a discipline? Should it be? Where does “urban affairs” sit in the community of scholars: in academe and elsewhere?
- What array of topics has directed research and writing and how has that mix changed over time?
- What should be and/or are likely to be future directions in urban research? What can we do to better shape that future?
- What role has UAA played in the development of urban affairs as a field? How has that role changed over time? What directions should the organization take going forward?

How Can Urban Affairs Researchers Expand Their Audiences?

- How can the UAA and urban scholars more effectively serve the needs of audiences that utilize research and knowledge? For example:
 - o journalists and others who “cover” urban affairs and related matters
 - o urban-oriented organizations (NLC, NACO, USCM, Governors’ Assoc, etc)
 - o governments at all levels (national, state, regional, local)
 - o non-profit research, community-based, and advocacy groups (e.g. PolicyLink, Center for Community Change, National Fair Housing Alliance)
 - o Scholars who are not involved in UAA, but do examine the significance of place including cities, suburbs, and non-metropolitan communities
- What do foundations and other funders look for regarding funding for urban research? How do their priorities influence research?

What is the Impact of Urban Affairs Research?

- What impact does urban research have?
- How can UAA members obtain greater recognition for their work (among scholars, practitioners and the public)?
- Does urban research require methodological changes to increase credibility?
- How can urban researchers produce greater impact on conditions on the ground, particularly in view of growing inequalities and polarization?

Special Conference Tracks

- **Urban Affairs Association Retrospective Special Track** will include sessions devoted to the UAA History Project with a focus on the evolution of the organization, its conference, and the Journal of Urban Affairs.
- **Urban Entrepreneurship Special Track** (see Call for Participation in 2019 Printed Conference Program)

SPECIAL TRACK ON URBAN ENTREPRENEURSHIP

Call for Participation

Urban Affairs Association (UAA) Annual Conference

Washington, DC | April 2-4, 2020

*****DEADLINE FOR ABSTRACTS: OCTOBER 1, 2019*****

Track Chair: Lara Arnold, Ewing Marion Kauffman Foundation

Given the continued importance of business development in urban employment and economic opportunities, the 2020 UAA conference will include a Special Track on Urban Entrepreneurship. This track is made possible with support from the Ewing Marion Kauffman Foundation, which is particularly focused on bridging market gaps and growing entrepreneurial ecosystems.

With very little of the total capital flow to entrepreneurs geared toward women and people of color and 81 percent of funding coming through personal net worth, family wealth, or connections to networks, it is not a mystery why today's make-up of entrepreneurs is overwhelmingly white, older, and male. Going forward, communities need to build the mechanisms and networks that help more people start new businesses. Further, with the nation's changing demographics, it is both a moral and strategic imperative to ensure inclusion and equity as communities seek to grow local economies (Statement by Larry Jacob, Vice President of Public Affairs, Ewing Marion Kauffman Foundation).

The Special Track on Urban Entrepreneurship welcomes papers that address topics such as:

- Entrepreneurial ecosystems
- Business development in urban neighborhoods
- Minority and women-owned business development
- Downtown redevelopment and employment
- Creative enterprise and job opportunities
- Smart cities and economic opportunity

To highlight the importance of these subjects, the Kauffman Foundation is sponsoring an award for the Best Paper in Urban Entrepreneurship, which will be presented at the 2021 UAA conference. A Foundation representative will be on hand to present the award at the conference. To qualify for the award, an abstract must be submitted, accepted, and the paper presented at the 2020 conference. After the conference, a paper must be submitted to the award selection committee. Paper submissions are due July 1, 2020. The award recipient(s) will be announced by September 1, 2020.

The UAA is North America's leading urban policy research association. For nearly half a century, UAA has brought together an interdisciplinary group of social scientists, public policy, education, human services, and planning researchers, and policy practitioners to exchange information and ideas that promote the well-being of urban communities. The annual conference attracts over 1000 attendees and generates more than 200 sessions along with mobile tours and workshops.

For information about the Kauffman Foundation and its initiatives: <https://www.kauffman.org>

EXTREMELY IMPORTANT: To be considered for this track, you must choose: Special Track: Urban Entrepreneurship under the Topical Category section when you submit your paper abstract on-line.
