- Panelists have only 12 minutes if there are four papers (15 minutes if there are three) to present their research question, methodology, major findings, and any conclusions they have drawn—and reading papers is absolutely *not* acceptable.
- Moderators *must* warn presenters when they have 5 minutes left of their time and again when there is 1 minute left of their time.
- Remarks by panel moderators—to introduce the topics or the panelists or to summarize what was discussed—may not exceed 12 minutes if there are four papers (15 minutes if there are three).

### Paper Exchange

There is a paper exchange in the Conference Center Reading Room. (Presenters should give extra copies of their papers to the conference staff when they register.) Papers are on sale for \$1 each; a file of paper abstracts is also kept at the conference headquarters desk.
