Useful Information

Guidelines for Panel Moderators & Presenters

- Start promptly!
- Reserve at least 30 minutes for discussion open to the audience.
- Panelists have only 12 minutes if there are four papers (15 minutes if there are three) to present their research question, methodology, major findings, and any conclusions they have drawn—and reading papers is absolutely not acceptable.
- Moderators must warn presenters when they have 5 minutes left of their time and again when there is 1 minute left of their time.
- Remarks by panel moderators—to introduce the topics or the panelists or to summarize what was discussed—may not exceed 12 minutes if there are four papers (15 minutes if there are three).

Book Display & Paper Exchange

Both the book display and the paper exchange are in the Walnut Room. (Presenters should give extra copies of their papers to the conference staff when they register.) Papers are on sale for \$1 each; a file of paper abstracts is also kept at the conference headquarters desk.

& Some Definitions

A *panel* is... formal consideration of an issue through the presentation of several papers followed by relatively structured discussion among the papers presenters and the audience.

A *colloquy* is... formal discussion of an issue.

A *roundtable* is... informal discussion of an issue over breakfast (and a good way to meet people who share your interests).
