# WELCOME TO NASHVILLE

On behalf of the Local Host Committee for this year's Urban Affairs Association Annual Conference, welcome to the Music City – Nashville, Tennessee.

We are excited to have you visit our growing, diverse, and vibrant city. Our committee includes faculty members from four Nashville-area universities – Tennessee State University, Middle Tennessee State University, Vanderbilt University, and Meharry Medical College. Our committee represents a wide range of professional, scholarly, and personal backgrounds that reflect and highlight Nashville's unique place in the urban south.

The Opening Plenary, "Nashville – A Balancing Act: Local Lessons on Preserving Communities During Rapid Urban Growth," is a poignant dialogue and discussion of Nashville's development, planning, and challenges. Prominent Nashville historian, Dr. Learotha Williams, Metro Councilman Bob Mendes, the Nashville Civic Design Center's Eric Hoke, and Conexión Américas' co-Executive Director Tara Lentz, offer perspectives and lessons from history, policymaking, urban design, immigration, and Nashville's place in Tennessee.

Our Local Host Committee got off to an early (2019) and late (January 2023) start as we faced COVID and other delays. These past three months we have come together as a team to ensure that our role in this year's conference offers participants insight into our great city and the institutions we represent. Please enjoy the Honky Tonks, but also explore beyond downtown and see Nashville – it will surprise you in a good way.

Thank you to Dr. Margaret Wilder, Dr. Deidre Beadle, and the entire team at the Urban Affairs Association for your invaluable guidance and stellar leadership.

Have a good one, ya'll.

## MISSION

The Urban Affairs Association (UAA) is dedicated to creating interdisciplinary spaces for engaging in intellectual and practical discussions about urban life. Through **theoretical, empirical, and action-oriented research**, the UAA fosters diverse activities to understand and shape a more **just and equitable urban world**. (Adopted March 12, 2010)

## HISTORY

UAA is the successor organization to the Council of University Institutes for Urban Affairs, formed in Boston in 1969 by a group of directors of university urban programs. As urban affairs developed as a professional and academic field, the need for an organization that welcomed **urban faculty, professionals, and students** as well as urban program directors and deans became increasingly apparent. In recognition of this need, in 1981 the organization's name was changed to the Urban Affairs Association.

Today, UAA includes over 600 institutional, individual, and student members from colleges and universities throughout North America, South America, Europe, Africa, Australia, and Asia. Among its other activities, UAA sponsors the ***Journal of Race and Ethnicity***, which serves as an outlet for ground-breaking theoretical and empirical approaches that explore race, ethnicity, identity and social justice, and the ***Journal of Urban Affairs***, a refereed annual journal, publishing manuscripts related to urban research and policy analysis of interest to both scholars and practitioners. All UAA members receive both journals as part of their membership fee as well as discounted pricing for **year-round professional development opportunities**. UAA also sponsors **Upsilon Sigma - The Urban Studies Honor Society**. Upsilon Sigma is dedicated to recognizing and encouraging excellence in scholarship, leadership, and engagement in urban studies and related fields. The mission is to promote academic excellence and enrich the educational experience of undergraduate and graduate students pursuing degrees related to urban studies.

The Urban Affairs Association hosts a **conference each spring in an urban center**. Recent conferences have taken place in Miami, San Diego, Minneapolis, Toronto, Canada, Los Angeles, Washington DC, and Nashville. The next conference will occur in New York City (2024). These yearly conferences are an integral part of UAA's efforts to increase knowledge about urban places and promote the development of research activities. They provide an excellent opportunity for members to exchange ideas, information, and experiences. The conference program features both topics of institutional concern and those related to urban issues. Each year, formal research papers are presented, with selected papers published in the *Journal of Urban Affairs*. Additionally, the conference format allows opportunities for informal activities designed to foster professional networking and open discussion.

# IN MEMORIAM | CAROLINE ANDREW

## BRIEF BIO

Dr. Caroline Andrew will be remembered for her scholarship, her nurturing mentorship, and community activism. She spent 30+ years in the School of Political Studies and as Director of the Centre on Governance at the University of Ottawa. As former dean of social sciences at the University of Ottawa, she co-founded its women's studies program and is recognized for her research on urban and feminist studies.

Dr. Andrew was invested as a Member of the Order of Canada in 2015 for her academic research on cultural diversity, on urban and feminist studies and for her civic involvement with non-profit and community-based organizations. Her Order of Canada biography reads, "Caroline Andrew is a leading voice in academia and social activism in Ottawa."

At the grassroots level, she volunteered with such organizations as the Ottawa Local Immigration Partnership and the Lowertown Community Resource Centre to advocate on behalf of newcomers, women and residents of inner-city neighbourhoods. She also championed civic initiatives that support better immigrant integration, crime reduction and the language rights of Franco-Ontarians. Within UAA, Caroline was a true service leader. Elected to two consecutive terms, she served as a UAA Governing Board member from 2005–2011, and as Board Vice Chair from 2010–2011. Her contributions to UAA conferences were made through both leadership as Program Committee Chair in 2001 (Detroit) and 2007 (Seattle), and Program Committee member in 2006 (Montreal). Through countless conference sessions, she advanced discourse on feminist analysis of urban dynamics and the role of community organizations.

Dr. Andrew received a BS degree in political science at the University of British Columbia in 1964, a Master of Social Science degree at Université Laval in 1966 and a PhD in political science at the University of Toronto in 1975.

## REMEMBRANCES

"I am deeply saddened that I will not see Caroline's warm smile and hear her kind words at UAA conferences. Not only was she an impactful scholar, she was such a kind, considerate, encouraging presence at the conference each year." **Jocelyn Taliaferro, North Carolina State University**

"I worked with Caroline Andrew in 2002/2003 at the Canadian Journal of Development Studies, where I was the managing editor and she was a board member. She was a wonderful colleague, always friendly and helpful to anyone who needed mentoring and smart enough to know that being on good terms with the person who stores all the extra furniture etc. at the university was true wisdom. Her combination of pragmatism and passion for her work was unflagging. She was rare among university colleagues for her humbleness and helpfulness. I feel a sense of loss at her passing very deeply." **Ruth Bradley St. Cyr, University of Ottawa**

"The death of Caroline Andrews is such a loss in so many ways. Caroline was an internationally recognized scholar of governance, immigration, and feminism. She was also a true activist who understood and accepted the need to "just get things done" in order to steer, mobilize, shape, influence, and bring about change at every scale. Caroline will be remembered as well for her warmth and generosity to generations of students and younger scholars especially, her easy laugh, her sharp insights, and her appreciation of collegiality and collaboration. She will be missed." **Susan E. Clarke, University of Colorado Boulder**

"To me, Caroline epitomized the concept of a steel magnolia. Incredibly sweet and pleasant, yet imbued with a resolve and sense of purpose that was unbreakable. Her work on behalf of women and marginalized communities reflected her strong values of social justice and human rights. For those of us who knew her well and had the pleasure of working with her, reading her work, attending her well-organized conference sessions, and accepting her warm smile and always encouraging words, the sense of loss is severe." **Margaret Wilder, Executive Director of Urban Affairs Association**

# IN MEMORIAM | BILL BARNES

## BRIEF BIO

Over his 30-year career at the National League of Cities (NLC), Bill's project work focused on a broad range of timely topics including public finance, racism and inequity, regional economies, and democratic governance. His scholarly publications appeared in respected journals, including *Urban Affairs Review*, *Public Administration Review*, and *Government and Policy*. He co-authored *The New Regional Economics* with Larry Ledebur. In 2010 he received the Donald C. Stone Award from the American Society for Public Administration for his contributions to the field of intergovernmental management. He received his Ph.D. in history and metropolitan studies from the Maxwell School at Syracuse University in 1977.

Within UAA, Bill played several key roles. Elected to the UAA Governing Board in 1991, he served two consecutive terms ending in 1997. His engagement extended into conference planning with service as 2004 Program Co-chair, and most recently as a member of the 2022 Local Host Committee. In 1987, he was appointed to the editorial board of the *Journal of Urban Affairs*. Among countless committee roles, he was one of the first members of the European Links Committee, UAA's earliest effort to build transatlantic connections.

Bill was a relentless advocate for UAA, particularly through efforts to build bridges between urban researchers and city government leaders. His position as director of policy research at the NLC, gave Bill a unique vantage point and ability to make such connections. For many UAA colleagues, he was a compelling voice that challenged purely academic debates by injecting incisive analyses of actual municipal decision making. In other words, Bill believed in "keeping it real." His voice is the kind that is essential as we seek to bring both truth and fairness to urban policy.

## REMEMBRANCES

"Bill Barnes made such a difference in my life and career. In the early 1980s, when I was a Visiting Scholar at the U.S. Department of Housing and Urban Development, Bill was Director of Policy Research at the National League of Cities. Bill generously included me in wide-ranging conversations about cities and ideas that taught me how and why to be an urbanist. With grace and good humor, Bill bridged the scholarly, practitioner, and policymaker communities in ways I never imagined. Bill was a wonderful warm person, with good hearted decency, intellectual curiosity, openness, integrity, and always a lively wit." **Susan E. Clarke, University of Colorado Boulder**

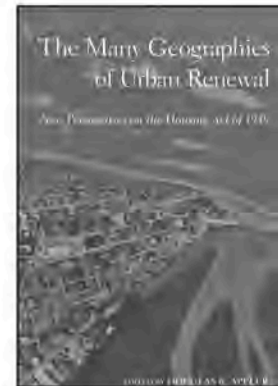

"Bill Barnes' professional life exemplifies what we all seek, a life surrounded by ideas and thoughts, and also a life that could reach out and teach those who make cities places of grandeur and justice. Bill connected the urban world of realpolitik with the academy; he contributed to our understanding of cities and regions; he connected elected officials to practical and pragmatic policies; he crossed the aisle between the university and the world we live in. And he did so with grace and humor, and not a bit of ego. Bill was a Marxist of the Groucho persuasion, and could quote at length from their movies. We learned from his wit, humility and knowledge. And his deep humanity. He helped to shape the policy world that we inhabit. It's been a privilege, an honor, an awakening to have known Bill, as I'm sure it has been for everyone who knew him." **Michael Pagano, University of Illinois at Chicago**

"Bill was a wonderful colleague and connector. He always kept us honest in our scholarship by contributing insights from what was happening in urban America and at the same time was a key bridge for translating our scholarship into new practices that could inform urban governance and policy." **Michael Rich, Emory University**

"Bill was not only interested in spurring fine scholarship on how to advance social and environmental justice in the city – he was also very active in delivering progressive public policies in his high-profile leadership role at NLC. Bill's intellectual contribution to urban studies was international and his active support, in helping to create the European Urban Research Association (EURA) and establish the strong UAA/EURA relationship, will never be forgotten. On top of that, those who were fortunate to meet Bill and work with him will remember his warmth, humour, and empathetic understanding. What a guy!" **Robin Hambleton, University of the West of England, Bristol & Founding President of EURA**

"Bill was a relentless advocate for UAA, particularly through efforts to build bridges between urban researchers and city government leaders. For many UAA colleagues, he was a compelling voice that challenged purely academic debates by injecting incisive comments on actual municipal decision making. His voice was the kind that is essential to bring both truth and fairness to urban policy. I always looked forward to our annual conversation about national urban policy from his perspective and interactions with mayors and policymakers. I knew there would be no BS in his comments. For me he was an important reality check. I miss him sorely." **Margaret Wilder, Executive Director of Urban Affairs Association**

## **NASHVILLE – A BALANCING ACT: LOCAL LESSONS ON PRESERVING COMMUNITIES DURING RAPID URBAN GROWTH**

Nashville is a recent addition to the list of major, and fastest growing, metropolitan regions in the US. The “Music City”, which is celebrated for its cultural heritage, has experienced unprecedented urban growth over the past decade. Between 2010 and 2020, the metropolitan region has registered 20 percent population growth. The Wall Street Journal has designated Nashville as the second hottest job market in 2020. So as major corporations like Amazon, Oracle, and Major League Soccer are bringing thousands of high paying jobs in the region, and the infrastructure development that accompanies them, Nashville is facing constant criticisms concerning growing income inequality, lack of affordable housing, gentrification-induced displacement of minorities, and loss of traditional identities and neighborhoods. In this session, the panelists will explore the pros and cons of the massive urban growth of Nashville on traditional communities and discuss strategies to preserve the “old” Nashville as the “new” Nashville takes center stage. The session sets the stage for a lively debate concerning the role that local governments, corporations, advocacy groups, and planners can play in guiding the process.

# MODERATOR GUIDELINES

Thanks for accepting this important responsibility! Your role as moderator is essential to the success of each conference session. Each presenter is counting on you to manage your session in an efficient and organized manner. Attendees really value well-managed sessions.

Moderators are primarily responsible for 1) introductions, 2) keeping the time, and alerting presenters of remaining minutes, and 3) managing the open discussion period. Here are some helpful hints on how to be an effective UAA session moderator.

## IMPORTANT “DO’S”

1. Arrive at least 10 minutes prior to the start of your session. If another session is wrapping up in the room, please stand at the back of the room until the session ends.
2. Prior to the start of the session, ask each presenter to upload any PowerPoint files to the desktop of the computer found in the room.
3. Check to make sure the time management signs are in the session room. If they are not, you may wish to ask an audience member to go to the UAA Registration Office to get a pair of signs. Do remember to leave these signs in the room for the next session.
4. Please start your session at the official starting time. Introduce the session by its title. You may make a simple statement regarding the main topics covered by the papers. Limit this statement to 1 minute.
5. Introduce the first speaker and that person’s paper title.
6. Make a note to yourself of the person’s starting time and anticipated ending time.
7. When 5 minutes remain in the talk, show the speaker the 5-minute yellow warning sign. Likewise, when 1 minute remains, show the person the 1-minute red warning sign. If the time is exhausted and the speaker has not finished, show the time expired sign and then rise from your chair and approach the speaker to end the talk.
8. Proceed to introduce the second speaker and follow the same instructions listed above.
9. Once all speakers have completed their presentations, invite the audience to ask questions. Note the time that the Q&A begins and when the session must conclude.
10. If the Q&A discussion slows down, consider asking questions based on your own interpretation or interests.

## IMPORTANT “DON'TS”

1. Do not wait for a crowd to form. Start the session on time.
2. Do not change the order of the papers listed in the conference program. Audience members often plan their arrival and departure based on the order listed in the program.
3. Do not allow discussion and questions between presentations. A few minutes lost between papers can create a time shortage for open discussion, or worse, may reduce the time available for the last presenter.
4. Although some conferences use discussants for sessions, UAA does not. The role of the moderator is to manage the session. Do not use your role as an opportunity to make assessments of each presentation.
5. Do not dominate the Q&A period by asking your questions first. Let the audience have the first chance to pose questions.

## WHAT YOU WILL FIND IN THE SESSION ROOM

**Time Management Signs**--To assist you in maintaining the timeframe of your session, UAA will supply several signs (i.e., a 5-minute warning sign, a 1-minute warning sign, and a time-expired sign) for your use in alerting speakers of their remaining time. You will find these signs in your session room. If they are not in the room, please visit the UAA registration desk for assistance.

**Audio-Visual Resources**--Each session room will be equipped with a screen, a laptop computer with PowerPoint software, and an LCD projector. A-V technicians will be on-call in the hotel during sessions.

## OTHER IMPORTANT INFORMATION

- Panel sessions are 90 minutes long.
- Within each session, approximately 15–20 minutes should be reserved for open discussion.
- In sessions with five presenters, each presenter is allotted 10 minutes.
- In sessions with three or four presenters, each presenter is allocated 12 minutes.

Keep in mind that introductions and transitions between each speaker do take time (as much as 2–4 minutes).

## ACCESS TO PAPERS

Please ask each presenter to state whether interested persons may access the paper. If access is available, the author should state how to obtain the paper.

# GENERAL INFORMATION

*Welcome! If this is your first UAA conference, do not worry. We are a pretty friendly organization!*

## NAME BADGES & TICKETS

**FRONT OF BADGE:** All UAA registration badges have a front that is basically the same and lists your name, affiliation and any UAA service role that you fulfill.

**BACK OF BADGE (MEALS / RECEPTIONS):** If you purchased tickets (via the online registration system) for any meals or events, these will be listed on the back of your registration badge. If you purchased a ticket for yourself plus a guest, the back of the badge will list the event with a "+1" to indicate that you purchased an additional ticket for a guest. If you did not purchase any meal or reception tickets, the back of your badge will be blank.

**MEAL & RECEPTION ACCESS:** All meal and reception events require that you show your badge at the entrance to the event. All event entrances are monitored, and badges are checked before you enter. We do not sell tickets at the door. The last day for online ticket sales was April 4, 2023.

To attend Breakfast Roundtable discussions, your badge must show that you purchased a breakfast ticket.

**LOST BADGES:** If you lose your badge, you will lose access to conference meals and receptions. Be very careful, your badge is worth an average of \$400.

## PRESENTATION GUIDELINES

Panel sessions are 90 minutes long. Within each session, approximately 15–20 minutes will be reserved for open discussion. In sessions with five presenters, each presenter is allotted 10 minutes. In sessions with three or four presenters, each presenter is allocated 12 minutes. It is best to plan on 10 minutes regardless of the number of presenters since last minute changes in the panel could affect your allotted time.

Presenters are encouraged to arrive a few minutes prior to their session in order to test their presentation. Audio-visual technical assistants will be on call to provide any necessary support.

## SESSION ROOM EQUIPMENT

Each conference session room is equipped with a laptop, screen, and LCD projector. If you wish to use PowerPoint (not required) for your presentation, please save your file to a portable USB flash drive. If you are building your slides via KeyNote on a Mac computer, please convert

your file to Microsoft PowerPoint or PDF and save to your flash drive.

We ask all presenters to avoid using their own computers for ease and efficiency in transitions between presenters in sessions. Delays in connecting computers reduce the amount of time for presentations and discussions.
